Global climate finance flows and opportunities for SDG synergies

Baysa Naran
2 February 2021
Global Landscape of Climate Finance

The most comprehensive assessment of climate finance flows

Informs policy makers and investment leaders including UNFCCC, IPCC, G7 and others

Provides a six-year trend analysis for a period between 2013 and 2018
Our initial estimate suggests 2019 climate finance flows will amount to USD 608 – 622 billion.
Climate finance tracking at CPI and synergies with SDG

**Global Landscape**
Overview of global climate-related primary investment.

**SE4ALL: Energizing Finance**
Tracking finance on energy access
