

Good morning, Mr. Alexander Trepelkov, Director of Division for Sustainable Development Goals in the UN Department of Economic and Social Affairs, honorable leaders from each countries and department, all speakers, ladies and gentlemen. It's an honour to have the opportunity to address such a distinguished audience.

Let me introduce myself. I'm Dr. Chayan Somniyarm, Executive Representative of International Investment group of Thailand. Today, on behalf of Thais people, I would like to take this opportunity to present a project which could make people having a better life.

For this Juncao project in Thailand which sponsored through the United Nations Peace and Development Trust Fund. I have planned and raised live farm animal. Especially, the project to clarify various of mushroom projects by Professor Lin Zhan Xi, and Dr. Lin Dong Mei. I would like to call both of them creator of grass from heaven. The project has been giving out a training course to soldiers, citizens and students from various universities. We have found out that the project was attracted from all the attendants.

However, Thailand is in the middle of a severe Covid-19 crisis and lockdown. Therefore, we are unable to invite experts from China to do training and explain more on this project.

In addition, we have been preparing to set up the project as soon as possible. In order to understand and increase more knowledges on Juncao project.

Therefore, I would like to take this opportunity to ask for your cooperation in advance. After completing of COVID-19. I will take action to achieve cooperation in terms of legal compliance with both government and private sectors. To accomplish for immediate success.
