

What is your message for world leaders attending COP26?

Leave a message in your mother tongue and add your name and Country

MARIAN RMZ NOV 03, 2021 06:25PM

我坚持带头行动，推广投资有利于气候环境的工业项目和生活项目。

我希望在COP26次会议上能够达成全面的承诺：同心同德解决气候问题。

Maraming salamat po sa pag-oorganisa ng aktibidad na ito upang mas paigtingin pa ang paglaban at pagbibigay ng kaalaman tungkol sa pagbabago ng klima (climate change). Nawa'y maging mulat pa at pagpursigihan ng ating mga pinuno ang kampanyang ito.

World leaders can't do it alone without our participation and action. But it will not be successful to achieved if world leaders won't be the first ones to initiate the change and action.

Sama-sama tayo sa pagpigil at paglaban sa problemang ito. **It's not yet the end , but we should act right now.**

How to tackle climate change in Arabic

I really do appreciate this webinar as it give us new heights of knowledge about climate change. Malaking tulong ang magkaroon ng malawakang kampanya ukol sa usaping ito. Let's all be part of the solution. Kapit-bisig! May pag-asa pa, may magagawa ka pa!

Damages and remedies for air pollution--- in urdu

i hope the meeting will be a success and action will be taken.

Thank you for hosting this event! Sama-sama nating isalba ang mundo sa climate crisis na ating nararanasan. Huwag natin itong ipagsawalang bahala. The SOL_TION needs U 🙌

Re: Climate Change

Dear World Leaders, We have only one chance to protect the planet. We urge leaders to allocate more funding for Climate change preservations. We need stricter laws in place for chemical companies, fuel companies to limit their discharge into the sea.

Kind Regards,
Ansuyah Sinanin

Tomar responsabilidad tomar acción.

Todos necesitamos tomar acción y responsabilidad el día de hoy, ya no es un problema que las futuras generaciones resolverán. Hoy, los que podemos tomar decisiones y actuar tenemos que hacer algo por los jóvenes y por nosotros mismos. Ustedes como líderes deben marcar el ejemplo y entender que la economía monetaria depende de la economía planetaria. Si los sistemas que nos sostienen, que nos dan aire, agua y comida no funcionan, no hay nada más. El mundo seguirá y la vida también, pero vida para nosotros está en juego, no se puede postergar más. Hoy hay la oportunidad de tomar decisiones y acciones que nos permitan mejorar la forma en que interactuamos con el planeta para poder seguir disfrutando y sobreviviendo.

Thank you for the event! Dear World Leaders remember to include libraries (school, academic, public) in the discussion to help communicate the climate change message. Libraries can help share the word and educate individuals via posters, groups, film events, discussion groups, community awareness initiatives, book collections, invited speakers, tedx video viewings, teaching etc. Libraries are the oldest service providers in the world. Library networks are strong and can be used more effectively. Engage with us more. Sharing stories about what actions are needed and what individuals can do are important. Please make the messages clear and actionable. It is an urgent matter and everyone needs to get involved! If you want to save the world include the librarians! Continue the good work and take good care, Evi :)

Давайте изменим мир и спасем планету вместе!

Beir bua!

Wissenstransfer und transnationale Zusammenarbeit ist essentiell! Nur gemeinsam kann die Klimakrise bewältigt werden.

Grüße aus Wien!

We so glad that the world has come together to tackle this big issue of climate change
