

# Office of the President and Cabinet

Presentation on Monitoring &  
Evaluation under NDS<sub>1</sub>

11 November 2021

Who designs this stuff? 🙄

# Content

- Introduction
- Vision 2030
- NDS1 2021-2025-Key Elements
- WOGPMS-What it is/Utilisation
- Institutionalisation of M&E-Environment
- Way Forward and Conclusion

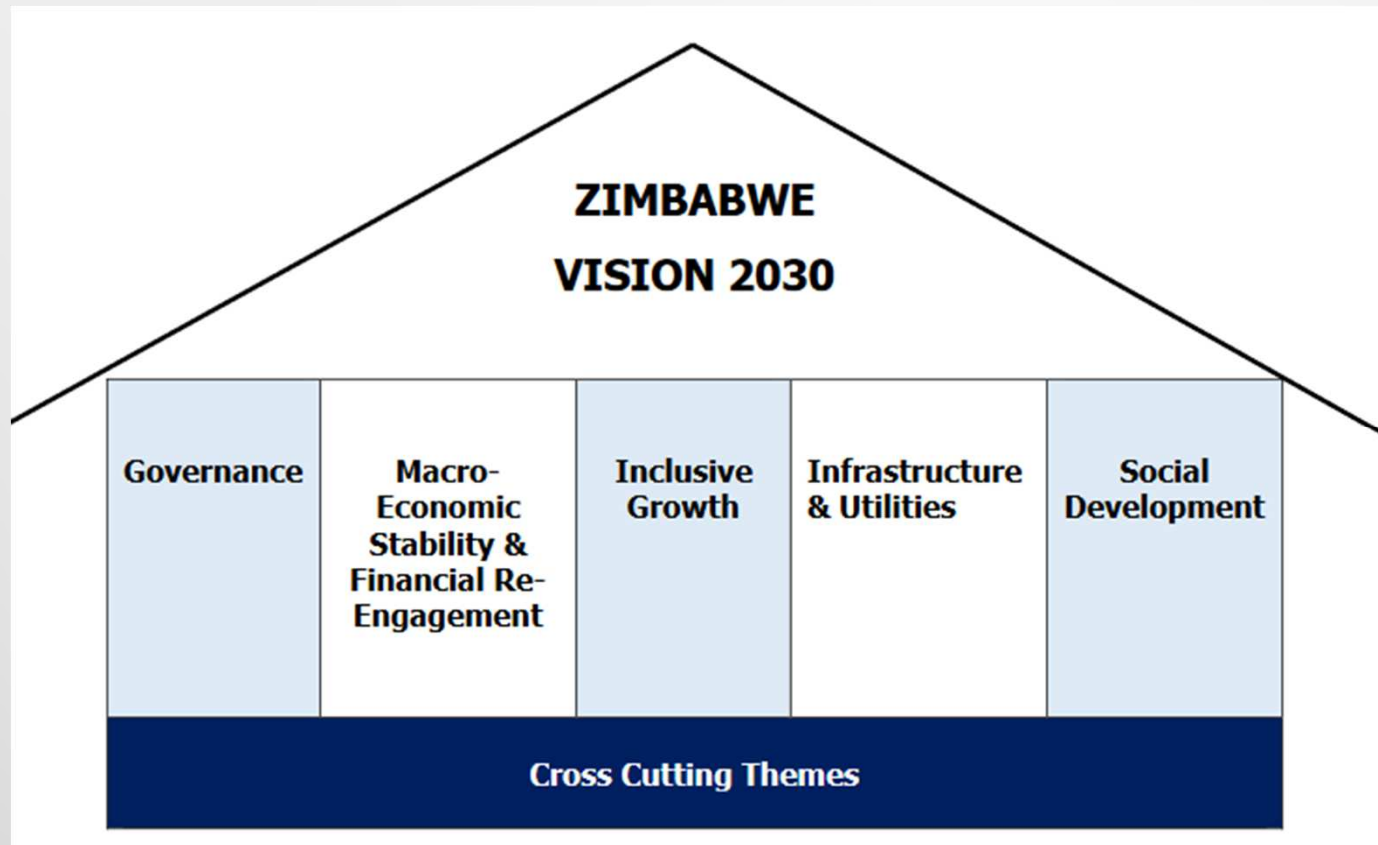

# Introduction

- Government has over the years been implementing transformative measures for the attainment of rapid economic growth and sustainable development in order to uplift the standard of living of the citizenry
- Chapter 2, Section 9(1) of the Constitution of Zimbabwe, *"the State must adopt and implement policies and legislation to develop efficiency, competence, accountability, transparency, personal integrity and financial probity in all institutions and agencies of Government at every level and in every public institution...."*

# Introduction

- In the Second Republic, on 17 September 2018, H.E President E D Mnangagwa announced the adoption of IRBM, and RRA as the new methodology for ensuring MDAs deliver quality services to the people.
- Further, H.E the President pronounced Vision 2030 **“Towards a Prosperous & Empowered Upper Middle Income Society by 2030”** as the nations long term development trajectory.

# Vision Pillars

# NDS<sub>1</sub> Overview

- NDS<sub>1</sub> is one of three strategies for the attainment of Vision 2030 and comes after the successful implementation of TSP.
- A medium term economic blueprint for the development of the country during the five year period
- Is informed by regional and international plans namely SDGs, Agenda 2063 and SADC Industrialization Strategy
- Identifies national and sectoral development priorities, outcomes, KPIs and planned targets
- Sets targets for the 5 year period broken down into annual targets

# NDS<sub>1</sub> Overview

## Key elements of NDS<sub>1</sub>:

- Macroeconomic framework
- 14 Thematic Areas
- NDS<sub>1</sub> Financing.
- Monitoring and evaluation
- Role of Monitoring and evaluation is to ensure that the Strategy is focused on results through formulation of IRBM compliant national and sectoral development results frameworks.

Poor Allocation of Resources!

# NDS<sub>1</sub> M&E

## WHY MONITOR NDS<sub>1</sub>

### The Power of Measuring Results

- If you do not measure results, you cannot tell success from failure
- If you cannot see success, you can not reward it
- If you cannot reward success, you are probably rewarding failure
- If you cannot see success, you can not learn from it
- If you cannot recognize failure, you can not correct it
- If you can demonstrate results, you can win public support

Adapted from Osborne & Gaebler, 1992

## NDS<sub>1</sub> M&E

- NDS<sub>1</sub> outlines the M&E implementation coordination architecture.
- Under the architecture OPC is at the apex to ensure programme efficacy, accountability transparency and value for money in programme implementation.
- Parliament will play its oversight role through its thematic committees and ensure adequate and timely budgetary allocations from the fiscus.

It doesn't matter how many resources you have.

If you don't know how to use them,  
it will never be enough.

# NDS<sub>1</sub> M&E

- Development Results Frameworks are cascaded to lower levels under the HoVER Principle to ensure horizontal and vertical linkages

HoVER Principle: Cascading National Priorities

Source: 2018 CeDRE International

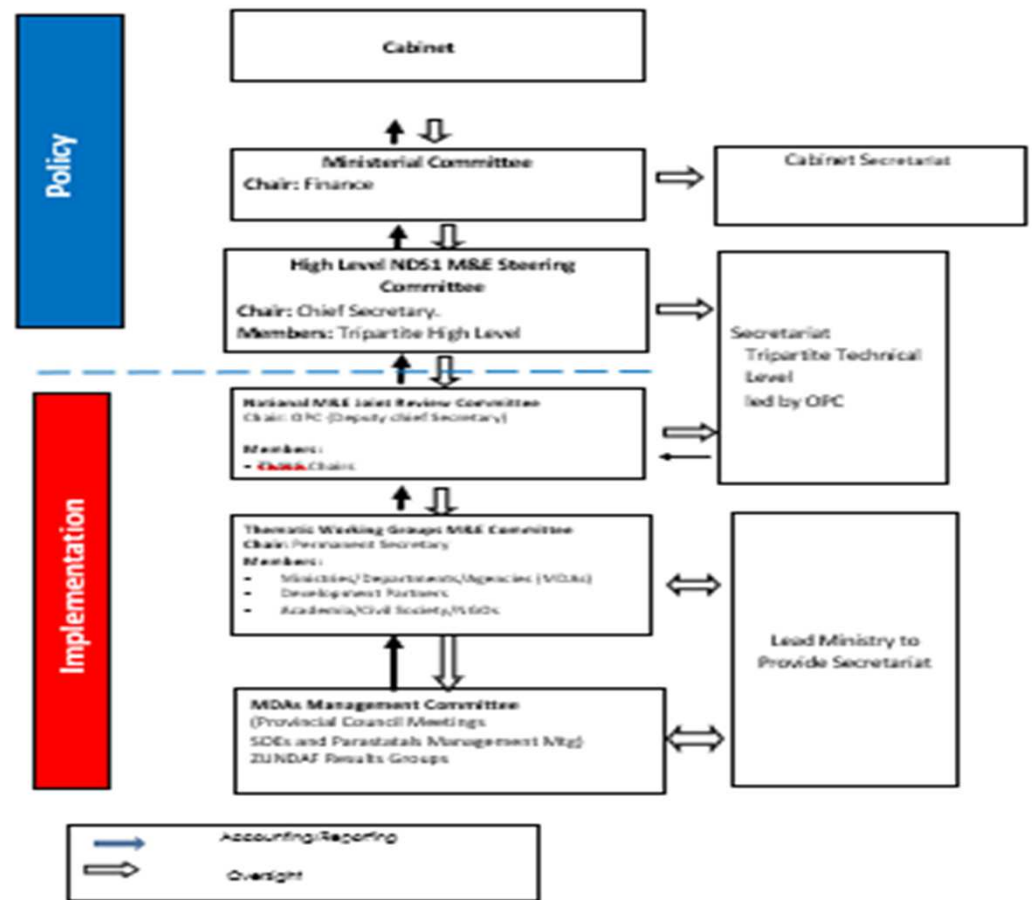

# NDS<sub>1</sub> M&E

- Implementation, monitoring and evaluation architecture inclusive of all key stakeholders: Government, business, Labour, civil society, academia, development partners and communities

IMPLEMENTATION, MONITORING AND EVALUATION ARCHITECTURE NDS<sub>1</sub>

# Whole of Government Performance Management System (WOGPMS)

- WOGPMS underpins Whole of Government Integrated Monitoring and Evaluation System
- Presents systems architecture for WoGPMS
- National level planning data requirements and inputting considerations
- National level reporting considerations
- Sector level planning data requirements and inputting considerations

# WOGPMS

- Ministry level planning data requirements and inputting considerations
- Ministry level monitoring and reporting considerations
- Programme/sub-programme level planning data requirements and inputting considerations
- Programme/sub-programme level monitoring and reporting considerations

# WOGPMS

- National level planning data requirements and inputting considerations –linked to EED and Cabinet Decisions Matrix
- National level reporting considerations-EED produces similar performance monitoring reports without the performance appraisal reports for the 100 day quick wins
- Ministry level monitoring and reporting considerations-EED report on 100 day cycle quick win projects

# WOGPMS

Operation of the WOGPMS requires:

- Ministry strategic plan to be submitted to OPC as a pre requisite for planning data inputting
- Performance contract to be implemented during programme implementation period.
- M&E plan required to ensure MDAs follow up on programme implementation

## WOGPMS Outputs

- Generation of electronic M&E reports from WOGPMS.
- Validation of all programmes and projects through periodic programme visits involving tripartite.
- Presentation of M&E reports to RBM&E Technical Committee.
- Consideration of M&E reports by Steering committee.

## Institutionalisation of M&E (Environment)

- M&E policy framework and guidelines  
Compels MDAs to mainstream M&E in programme and project implementation and periodically produce M&E reports for accountability
- M&E guidelines (Handbook)  
Provides MDAs with the procedures for carrying out M&E
- RBM&E Technical Guidelines  
Outline system, policy and regulatory framework, processes and institutional and functional arrangements.

# Going Forward

- Capacity Strengthening for the M&E Departments
- Capacity Development on the M&E and on the use of through the **WoGPMS**
- Data Collection and Collation through the **WoGPMS**
- Data Analysis and Reporting through the **WoGPMS**
- Report Dissemination and Follow through
- Use of Findings to Support Decision Making

# Conclusion

- The NDS<sub>1</sub> implores all government departments to utilize the WoGPMS for programme monitoring and evaluation.
- This will ensure management for development results to inform decision making, promote efficacy, transparency and accountability in programme implementation.
