Other input

Name/Organization/Country	Question/Input
Birgilio Rivera Uso Inteligente ASV/AG Smart Use	Our organization Uso Inteligente ASV AC/Smart Use is working with students of ITESM in Mexico with many projects, 6 of them are different projects of recycling components of electronic devices to create other electronic products (toys, counters, microphones), the students would like to participate and share information, our organization has shared and be part of many forums but never being considered to share our efforts, not even being attended our information.... Can we share the students' information, or engage them to participate? We don't want to share their information and not being considered or respected...
Omondi Peter (Global Youth Forum)	<p>What is being done to empower the youth in the Rural communities in relation to Science and Technology Advancement?</p> <p>Good point on Schools. Marginalised schools are disadvantaged. What is UNDESA doing to empower the marginalised school children access digital learning tools?</p> <p>What is being done to protect young innovators with great ideas from being exploited by the well established</p>

	<p>organisations?</p> <p>How are the Youth in the marginalised communities be involved in such engagements and how is UNDESA working to incorporate the marginalised youth on SDGs work?</p> <p>How can youth led community based organisations like Global Youth Forum work with UNDESA to advance SDG agenda?</p> <p>Infrastructure is key towards STI work.</p>
Mary Namukose (GIS Uganda)	I would be interested to know how countries from the global south are contributing to this process.
Anant Bhaskar Garg (HRDEF)	Please let us know more on youth engagement with STI4SDG especially in developing countries.
Mila Rosenthal (New York Academy of Sciences)	What is the relationship between the STI Forum and the UNGA Science Summit?
Tamara Seres Claivaz (Crowdhelix)	How can we as newcomers to the UN STI Forum most effectively liaise with the forum and start collaboration?
Godfrey Gumisiriza (5th year medicine and surgery student and innovator)	I would like to know how us the individual innovators could be part of this ?
