COVID recovery is an issue of policy coherence – Do we build back as quickly as possible, or build back greener and better? And what does this look like?" 

Read more in 

What does Policy Coherence look like in a Post-COVID World? By Måns Nilsson, Executive Director, Stockholm Environment Institute (SEI)
UNESCO SDG cross-cutting competencies
SDG Fitness Test
Test your SDG core cross-cutting competencies by immersing yourself in real-world scenarios!

4 scenarios | 24 questions
How can solar power stimulate economic development?
Well, it can ensure carbon-free energy and support women.
Economic development?

Well, it can ensure carbon-free energy and support women.

- Project on micro solar power
- Carbon-free energy
- Women entrepreneurship
- CO2 emissions

Economic development???
Well, it can ensure carbon-free energy and support women.

Sorry, not convinced!
Solar power can contribute to stable prices and long-term financial planning for businesses and households!
Solar power can contribute to stable prices and long-term financial planning for businesses and households!
