

UN
2023 WATER
CONFERENCE

NEW YORK
22-24
MARCH
2023

Side Events Programme

Programme for side events taking place virtually during
the UN 2023 Water Conference – updated 15 March 2023.

This programme is being updated on a rolling basis. Access it online for the most up-to-date version.

All the times in this side events programme are shown in Eastern Daylight Time (EDT). Please find more information about the EDT time zone [here](#).

Saturday 18 March

2
<p><i>The United Nations University Institute for the Advanced Study of Sustainability (UNU-IAS), United Nations University Institute on Comparative Regional Integration Studies (UNU-CRIS), Belgium, The United Nations University Institute for Integrated Management of Material Fluxes and of Resources (UNU-FLORES), Germany, Ministry of the Environment, Japan, The Institute for Global Environmental Strategies Japan (IGES), Japan, Institute for Future Initiatives, the University of Tokyo, Japan, Future Earth</i></p> <p>Valuing Urban Water in Asia for achieving Sustainable Development</p> <p>Water valuation for the purposes of water quality assessment, projection, including future changes in society through increased awareness and green investment, with the focus on cities in Asia.</p> <p>https://ias.unu.edu/en/events/upcoming/valuing-urban-water-in-asia-for-achieving-sustainable-development.html marcin.p.jarzebski@unu.edu</p>
7.00 - 9.45
<p><i>Ministry of Foreign Affairs - Brazil, and the Global Judicial Institute on the Environment (GJIE), Global Judicial Institute on the Environment (GJIE); IUCN World Commission on Environmental Law (WCEL); UNEP Law Division; International Council of Environmental Law (ICEL); International Association of Judges (IAJ)</i></p> <p>The 2018 Brasilia Declaration of Judges on Water Justice: The role of courts in contributing to the implementation of SDG 6 and other water-related goals and targets</p> <p>The Side Event will feature Supreme Court Judges and legal experts discussing the 2018 Brasilia Declaration of Judges on Water Justice, a main product of the 8th World Water Forum.</p> <p>https://www.iucn.org/events/webinar/2018-brasilgia-declaration-judges-water-justice-role-courts-implementation-sdg-6-and wcel@iucn.org</p>
8.00 - 10.00
<p><i>The Polly Foundation, Stockholm+50 Youth Task Force Kenya</i></p> <p>Transboundary water in Lake Victoria region</p>

2 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

Managing transboundary water interdependencies.

<https://www.thepollyfoundation.com/> Thepollyfoundation4@gmail.com

8.30

India Water Foundation World Water Council

Accelerating SDG 6 Achievements through Cross Sectoral Partnerships': A High level Policy Dialogue

There is an urgent need to accelerate effective cross sectoral partnerships to deliver on the SDG6 which in turn would contribute to a range of other SDGs including on climate action.

<https://www.indiawaterfoundation.org/un-2023-water-conference/> shweta.tyagi@indiawaterfoundation.org

9.30

Delft University of Technology, Delft University of Technology, Faculty of Architecture and the Built Environment, the Netherlands, IIT Roorkee, Department of Water Resources Development and Management, India, Dutch Research Institute for Transitions (DRIFT), The Netherlands, CEPT University, India, MANIT, Bhopal, Department of Architecture and Planning; Centre for Water Resources Development and Management (CWRDM) India, University of Twente, Faculty of Geo-information and Earth Observation, Department of Earth Observation Science, Deltares, the Netherlands, IHE-Delft Institute for Water Education, the Netherlands, IRC WASH, The Netherlands-India, Arid Communities and Technologies (ACT)

Co-designing water sensitivity for fast-growing secondary cities: cross-sectoral relational dynamics and pathways for socio-ecological transitions

How to reconceptualise and apply the concept of water sensitive cities in secondary size cities in India.

<https://w4cproject.org/un-2023-water-conference-virtual-side-event-co-designing-water-sensitivity/> t.bacchin@tudelft.nl

10.00 - 11.30

Mojo Design Studios, Mojo Design Studios, Runa Ray

The Fashion and Clean Water Nexus

Discussing the impact of fashion on water from land to the oceans.

<https://sustainablefashionworkshop.com/> contact@runaray.com

10.00 - 11.30

3 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

ACT For Sustainable / International Pharmaceutical Students' Federation African Youth Initiative In Climate Change. Juventud Unida en Accion. Children And Youth Consistency For UNFCCC (YOUNGO-Health) Working Group. University of Colorado School of Medicine

A One Health Perspective On Water-Borne Diseases

This youth-led side event is to bring together young people & professionals from around the world to come up with creative ideas for how young people can support the Water and One Health Action Agenda.

<https://www.eventbrite.com/e/a-one-health-perspective-on-water-borne-diseases-tickets-567147682987>

publichealth@ipsf.org

4 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

Sunday 19 March

9.00 - 10.30

International Rainwater Harvesting Alliance (IRHA), Lanka Rainwater Harvesting Forum, South Asia Rainwater Network (SARNET), Rainwater Harvesting Association of Malawi (RHAM), Rain for All, American Rainwater Catchment Systems Association (ARCSA), Asociación Mexicana de Sistemas de Captación de Agua de Lluvia A.C. (AMSCALL)

Harvesting rainwater: essential to achieve 6.1 and for water security

Presentation of role of rainwater harvesting in domestic and institutional water supply, for agriculture and ecosystems, for aquifer recharge and in urban settings; with cases from around the world.

<https://www.irha-h2o.org/en/agenda?event=1899> han.heijnen@irha-h2o.org

9.00 - 10.30

International Forestry Students Association (IFSA), United Nations Migration Youth and Children Platform, Oceanus Conservation

Youth Water Action - Conservation of Coastal Ecosystem in Southeast Asia

A youth-led event highlighting the application of indigenous knowledge and its impact in protection of coastal ecosystems, including youth-led actions which are aimed towards the 2030 Water Agenda.

<https://docs.google.com/forms/d/e/1FAIpQLSeqZ7mTi1a8K2cyIKhsj3gLP8LVuZkRy8w9eo2HuUxBzSMQTA/viewform> damya.srivastava@ifsa.net

11.00 - 12.30

Creators Union of Arab, Arab Media Union

Water is the main competitor for sustainability

Improving water quality, saving energy and securing agriculture is known as the optimal utilization of water resources.

www.arabcreators.org almobdien22@yahoo.com

5 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

Monday 20 March

3.00 - 4.30

Van Hall Larenstein University of Applied Sciences, Wageningen University & Research; Murdoch University; PIAREA Institute; Khulna University

Nature Based Solutions for Sustainable Riverine Systems

Students from four countries are presenting interesting riverine NBS cases and share experiences with the aim to learn from these cases

www.hvhl.nl/welkom/nbs4sustainableivers

nbs4sustainableivers@hvhl.nl

5.00 - 7.00

Arab Red Crescent and red Cross Organization, The Sudanese Red Crescent/ Iraqi Red Crescent Society/ Red Crescent Society of Djibouti/ Mauritania Red Crescent / Yemen Red Crescent Society

Challenges facing Arab Red Crescent Societies regarding water scarcity and overviewing experiences and solutions

Challenges in water-related disasters (floods, drought, etc). focusing on how climate change is affecting the right to water and encouraging stakeholders engagement.

<https://arabrcrc.cloud/>

randab@arabrcrc.org

7.00

Women for Water Partnership, GWP-SAS; WfWP; GWA; SaciWATERS; FEED SCOPE; NetWwater; NISHTHA; WWF–US; MarsdenJacobs; ASU - WPG

Climate Change, Wetlands and Women: Actions Towards Creating Resilient Communities and Ecosystems

Joining stakeholders provide a platform to voice indigenous women. Showcase SouthAsian illustrations providing leadership opportunities, women as change makers. Discussing existing challenges etc.

<https://www.womenforwater.org>

jayati@saciwaters.org

8.00 - 9.30

United Nations Industrial Development Organization (UNIDO), Bangladesh (Ministry of Industries), Indonesian (Ministry of Industry), South Africa (Department of Trade, Industry and Competition), Switzerland (State Secretariat of Economic Affairs), UNIDO, World Bank Group, GIZ

Sustainable Industrial Water Use through Eco-Industrial Park Approaches

6 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

The role of eco-industrial park approaches in accelerating sustainable water use by industries.

<https://bit.ly/3KpOEDh>

b.verez@unido.org

8.00 -9.30

IFPRI, AMCOW; Water Research Institute Ghana; Federal Institute for Geosciences and Natural Resources Germany; Ministry of Water and Sanitation Senegal; Ministry of Water and Environment Uganda; IFPRI; African Union Commission; Gov. of Ethiopia; NEXUS Gains, ILSSI

Potential and Pitfalls for Africa

This event discusses the African Ministers' Council on Water's groundwater program with case studies of groundwater development benefits as well as institutional advances in several African countries.

<https://www.ifpri.org/event/groundwater-potential-and-pitfalls-africa> c.ringler@cgiar.org

8.30 - 9.30

HaritaDhara Research Development and Education Foundation, NavUrja Sanchar

Decade of Water Action, 2030 Agenda, and Sustainability implementation through Educational Games and Hands-on Activities

Inclusive Quality Education with Games and Hands-on Activities for 2030 Agenda, Sustainability, and Water Action.

<https://www.hrdef.org/event-registration>

anantgg@yahoo.com

9.00 - 10.30

United Nations University (UNU-MERIT) UN system: UNU-MERIT / UNU-CRIS / UNU-EHS / WHO Member states: United Kingdom of Great Britain and Northern Ireland (Directorate for Energy and Climate Change, The Scottish Government / Ministry of Sustainability, Innovation and the Environment, Government of Anguilla; Ministry of Health, Democratic Republic of São Tomé and Príncipe, Academic institution: Glasgow Caledonian University, UK

Water for Climate Mental Health Resilience - Integrating inclusive water strategies in climate services

A collective 'call for action' towards the better understanding of evidence and solutions to address mental health implications of climate water insecurities to implement smart climate strategies.

[https://www.merit.unu.edu/events/event-abstract/?id=2278&speaker=Sanae%20Okamoto%20\(UNU-MERIT\)%20;%20Nidhi%20Nagabhatla%20\(UNU-CRIS\);%20Robert%20Oaks%20&%20Kariuki%20Weru%20\(UNU-EHS\)](https://www.merit.unu.edu/events/event-abstract/?id=2278&speaker=Sanae%20Okamoto%20(UNU-MERIT)%20;%20Nidhi%20Nagabhatla%20(UNU-CRIS);%20Robert%20Oaks%20&%20Kariuki%20Weru%20(UNU-EHS))

7 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

okamoto@merit.unu.edu

9.00 - 10.30

Diplomatic Council, Well:Fair Foundation

Water is a vital prerequisite for global peace and stability and the life-changing impacts of access to WASH

Why Water is a vital prerequisite for global peace and stability and the life-changing impacts of access to WASH.

<https://www.diplomatic-council.org/unwater2023> info@diplomatic-council.org

9.00 - 10.00

Marchlewicz Marketing Management Agency

Water Action Agenda & the 2030 Agenda by standard model of our existence

Ensuring aims of Water Action Agenda & sustainable development by model of our existence within and with Earth environment system ordering our acting and management by GDP/SN, budget and the 2030 Agenda/17 SDGs.

[https://events.zoom.us/ev/AqMxUIJlaqOdVVnW-qPS-947vTmgEytdL6o7bZfLURx_USuMCVl2~AggLXsr32QYFjq8BIYLZ5106Dg](https://events.zoom.us/j/911111111111)

juup@post.pl

9.00 - 10.30

Fundación Avina, SouthSouthNorth / Fundación Futuro Latinoamericano / Global Resilience Partnership / UN Climate Change High-Level Champions

Local voices from the global south: showcasing community action for resilient water solutions

The event will raise 3 issues: 1) The importance of collaboration; 2) the significance of local voices' inclusion in the decision making process 3) the need for local communities to access finance.

<https://cdkn.org/story/local-voices-global-south-messages-local-communities-heart-water-solutions> paz.gonzalez@avexternos.org

9.00 - 10.45

FAO Regional Office for Near East and North Africa, The League of Arab States (LAS), International Center for Biosaline Agriculture (ICBA), The Arab Network for Environment and Development (RAED)

Acceleration Frameworks for SDG6 Achievements in the Arab Region: Halfway Progress, Challenges and Future Commitments!

8 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

This virtual session will examine regional and national initiatives to advance water action in the Arab Area to accelerate SDG6 goals, particularly Goal 6.4.

<https://www.fao.org/platforms/water-scarcity/events/detail/acceleration-frameworks-for-sdg6-achievements-in-the-arab-region/en>

heba.alhariry@fao.org

10.00

Corporación Privada para el Desarrollo de Aysén Earth Law Center; International Rivers; Fundación Ngenko

Patagonia, esencial territorio para la Sostenibilidad Mundial del Agua: Desde lo local para incidir en lo global (Patagonia, hotspot for World Water Sustainability: Working local for resolving global)

Patagonia's relevance in facing global climate crisis, due to its big water reserves and its climate regulatory features, told by local and international organisations working in the territory.

www.somoscodesa.org

codesachile@gmail.com

10.00

United Nations Environment Programme, Deltares, Group on Earth Observations (GEO) Secretariat, Secretariat of the Convention on Wetlands (RAMSAR), GEO AquaWatch, GEO BluePlanet, GEOGloWS

Earth Observations In Support of Water Action

The goal of this side event is to introduce Member States to the utility of Earth observations for water monitoring and identify cross-sectoral partnerships that can support the Water Action Agenda.

<https://geoblueplanet.org/eo4wateraction/>

dany.ghafari@un.org

10.00

Hungarian Water Association, Blue Planet Foundation, University of Public Service - Faculty of WaterSciences, National Waterworks Inc

Investment needs in water and wastewater infrastructure in fulfilling SDG6

Bankability and affordability of WASH solutions, full scale/near to customer solutions, role of horizontal and vertical solidarity in solving the problem.

<https://hungarianwaterassociation.com/>

unsideevent@hungarianwaterassociation.com

10.00 - 12.00

9 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

University of Arizona, American Geophysical Union, CUAHSI, University of Arizona, WMO, UNESCO, National Academy of Sciences, IHE Delft

Engaging Early Career Professionals and Students in Water Sustainability and Resilience through Data Equity

A charrette driven by early career professionals and students to develop actionable steps and entry points to galvanize justice-centered change that transcends the side meeting.

<https://caitlynahall.com/water-2023-virtual-side-meeting/> cahall@arizona.edu

10.00 - 11.00

The One Drop Foundation, The American Farm School, Perrotis College

Valuing our Water – Investing in the Next Generation

Engaging participants with interactive tools, this session will share insights and experiences on food systems intersecting water security and youth leadership in Greece and LMICs.

<https://www.onedrop.org/en/news/un-water-conf-food-water-nexus/> contact@onedrop.org

10.00 - 11.00

IFPRI IWRA; University of Illinois at Urbana-Champaign, USA; Federal University of Sergipe, Brazil; Hohai University, China; University of Manchester, U.K.; Monash University, Australia; KEO International Consultants, Egypt; Indian Institute of Technology Bombay, India.

Water & SDGs - Downscaling WATER relevant SDGs (DWAT-SDGs)

This session discusses the IWRA task force localizing water-relevant SDGs to facilitate their realization and support sustainable water resources management in a climate crisis.

<https://www.ifpri.org/event/water-sdgs-downscaling-water-relevant-sdgs-dwat-sdgs> c.ringler@cgiar.org

10.00 - 11.00

National Water and Sanitation Agency of Brazil – ANA, United States Geological Survey - USGS

R-SPARROW as a tool to map pollution loads in watersheds

The event will demonstrate the use of a tool developed by ANA and USGS, the R-SPARROW, for water quality modelling, with a case study in the river Grande basin in Brazil.

10 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

<https://63ee83977e199.site123.me/>

leandro.silva@ana.gov.br

11.00 - 12.00

Universidad de Zaragoza AGUDEMA, Instituto Universitario de Ciencias Ambientales (Unizar), Universidad Externado de Colombia, Universidad Nacional de Cuyo, Universidad de Mendoza

WATER POLICY, CLIMATE CHANGE AND CIRCULAR ECONOMY. LEGAL CHALLENGES OF THE ECOLOGICAL TRANSITION (Proyectos de investigación TED2021-130264B-100 / I+D+i PID2021-124296NB-I00)

The event seeks to identify and analyze the set of legal challenges that water law and policy must face in relation to climate change, the circular economy and the ecological transition.

<https://agudema.com/>

libermartin@gmail.com

11.00 - 12.30

Conservation International Foundation, IUCN, The Nature Conservancy, WWF, Microsoft, PepsiCo, International Water Management Institute, IHE Delft Institute for Water Education

Mobilizing for healthy watersheds: what's your next move?

We know solving water issues requires collaborative processes that bring multiple sectors together. And we then need to align on agreed targets and objectives. But can it be done for your basin?

<https://www.freshwaterhealthindex.org/rsvp>

info@freshwaterhealthindex.org

12.00 - 13.00

Pacific Institute, US Environmental Protection Agency

Harnessing the Power of Water Efficiency and Reuse

This side-event will explore water efficiency and reuse opportunities and national and global strategies for promoting greater uptake.

<https://pacinst.org/un-2023-water-conference/>

info@pacinst.org

13.00 - 15.00

The Water Center at Penn, NY DEP; NJ DEP; Delaware River Basin Commission; Metropolitan Water District of Southern California; The Consulate General of the Kingdom of the Netherlands in New York

11 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

Basin-wide Cooperation for Drought Resilience: Case Studies to Inform Transboundary Management

Hear from leaders from the Delaware River Basin and beyond as they discuss areas of cooperation within their basins and how their stories can inform successful transboundary water management.

https://watercenter.sas.upenn.edu/calendar_event/basin-wide-cooperation-for-drought-resilience-case-studies-to-inform-transboundary-management/watercenter@sas.upenn.edu

15.00 - 17.00

International Joint Commission, Council of the Great Lakes Region, International Joint Commission, International RiverFoundation, International Secretariat for Water

Fostering Resilience Through Cooperation in Transboundary Waters

This 2-hour virtual side event will illustrate how greater collaboration across borders and sectors promotes the more resilient and inclusive management of shared waters in an era of climate change.

<https://www.ijc.org/en/un-water-2023-transboundary-waters> water2023@ijc.org

16.00 - 18.00

Rain For All, Rain For All, Mekong Institute, IWA RWHM, SNU ICEE, IRHA

Rain school activities in monsoon countries to overcome climate crisis

Recalling that most of the climate crises are related to rainwater, it is necessary to learn and share the wisdom of rainwater management from the school through an international rain school network.

<http://rainforall1.cafe24.com/notice/?uid=16&mod=document&pageid=1> rainforall1@gmail.com

17.30 - 19.00

Water Authority of Fiji, Pacific Water and Wastewater Association (PWWA)

Meeting SD6 in the Pacific: Challenges and Actions

This event will enable an exchange of ideas necessary to develop concrete actions identified at the 6th Pacific Water and Wastewater Ministers forum to meet SDG6 for all people of the Pacific.

<https://www.globalwaterinstitute.unsw.edu.au/meeting-sdg6-in-the-pacific> g.leslie@unsw.edu.au

12 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

17.30

Instituto Maria Helena Andrés, Minas Gerais, Brazil, planetapontocom, Rio de Janeiro, Brazil

Water, Education, History and Arts

This event shows how the artistic language is valuable in enhancing awareness about Water.

www.imha.org.br

ecologizar@gmail.com

18.00 - 19.00

Water Authority of Fiji, Partner name 1: Pacific Water and Wastewater Secretariat (PWWA) Partner name 2: Ministry of Public Works, Meteorological Services and Transport (MIMS) / Department of Water and Sewerage (DWS) Partner name 3: University of New South Wales (UNSW)

Meeting SDG6 in the Pacific: Challenges and Actions

A discussion of the challenges facing Pacific Island Countries and Territories and actions required to meet SDG6 identified at the 6th Pacific Water and Wastewater Ministers Forum in Fiji Nov 2022

<https://www.globalwaterinstitute.unsw.edu.au/meeting-sdg6-in-the-pacific>

g.leslie@unsw.edu.au

22.00 - 00.00

IBON International, IBON International, International Indigenous Peoples Movement for Self-Determination and Liberation (IPMSDL), Center for Environment Concerns - Philippines (CEC-Philippines), Centre for Research and Advocacy - Manipur (CRA-Manipur), Ogoni Solidarity Forum, Consejo Indígena Maya Ch'orti' de Olopa Chiquimula, Katribu National Alliance of Indigenous Peoples in the Philippines (Katribu)

Committing to the Flow of People-Centered Water Action

Join Indigenous Peoples, environment defenders and CSOs and hear their experiences & challenges, harness their knowledge & actions to achieve a truly sustainable management of water resources.

<https://www.ipmsdl.org/events/committing-to-the-flow-of-people-centered-water-action/>

paul.belisario@ipmsdl.org

13 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

Tuesday 21 March

5.00 - 7.00

International Centre for Leadership Development Nigeria, 4Revs Africa / Next Leaders Initiative for Sustainability

Water for Sustainable Development: Innovative Solutions to the Water Crisis in Africa

Innovative solutions is needed in Africa to help humanity solve this Water challenge.

<http://icldng.org/unwater2023/> iziomoh@icldng.org

6.00

Foundation for Ecological Security, FES, Youth4WaterIndia, UNU-CRIS, Water Initiatives, WFL(Cameroon), UPWCD, Manthan, UNIFY, WYN, WCC, Ohenagianos

Towards Youth Inclusive Water Governance: Filling the Information and Knowledge Voids

In this session, we will have youth leaders and subject experts discourse on barriers and opportunities to Reconnecting Youth to the Water commons through a Youth-led and Youth-Centered Approach.

www.fes.org.in ranjanpanda@gmail.com

7.00 - 8.15

IWA, Deutsche Gesellschaft für Internationale Zusammenarbeit GmbH (GIZ), Germany; Grundfos, Denmark; African Global Networks, South Africa

Resilient and Inclusive Sanitation in combatting Climate Change Events and Extremities

The session draws on experiences of public, private, & social sectors and outlines adaptation strategies for strengthening climate resilience related to sanitation governance, systems & services.

<https://iwa-network.org/learn/un23-virtual-side-event/> Charles.Joseph@iwahq.org

8.00 - 9.30

International Association for Hydro-Environment Engineering and Research (IAHR), Spain Water, China Institute for Water Resources and Hydropower Research (IWHR), Organisation for Economic Cooperation and Development (OECD), DHI Group, International Commission on Large Dams (ICOLD), International Water Resources Association (IWRA)

14 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

Sustainable Water Engineering Bringing Together the Global Community

<https://www.iahr.org/index/detail/870>

derek.cai@iahr.org

8.00 - 9.30

Indian Institute for Human Settlements, Pan-African Sanitation Actors, WaterAid, World Health Organisation, SNV Netherlands Development Organization, Sustainable Sanitation Alliance, International Labour Organization, World Bank, UN-Habitat

SDG 6.2 – A Pipe Dream Without a Professional Sanitation Workforce

This session aims to raise awareness about well-being of sanitation workers, bring their voices to the forefront, and explore pathways to progress based on experiences from several countries.

<https://tnussp.co.in/unwaterconference/>

abhilaashan@ihs.ac.in

9.00

Corporación Privada para el Desarrollo de Aysén Red por los Ríos Libres; ONG FIMA; Agrupación Aysén Reserva de Vida; Ecosistemas

Red por los Ríos Libres en Chile: Una experiencia sustentada en el compromiso (Free Flowing Rivers Network in Chile: A commitment experience)

Since 2019, organizations and river defenders work, through the Free Flowing Rivers Network, in highlighting cultural, social and ecosystem importance, promoting today the Law of Protected Rivers.

www.somocodesa.org

codesachile@gmail.com

9.00

MetaMeta Research , The Groundwater project. WHO. Aqua 4 All. Danone. Nazava. Basic Water Needs.

2 WITH 8. Safe drinking water for 2 billion people with Household Water Treatment and Safe storage (HWTS) at a cost of \$8 billion.

This event will show failures and success with HWTS and share decades of experience that can help to provide safe water for 2 billion people with a one time grant of \$4 / person.

<https://smartcentregroup.com/index.php/unwater-2-with-8>

henkholtslag49@gmail.com

9.00 - 11.00

ZDHC Foundation , Burberry, Elevate Textiles, GIZ, H&M, Hugo Boss, IHE Delft, Nike, Nimkartek, Pantarei, WEF, WWF, ZDHC

15 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

Wastewater management in the Textile, Footwear and Leather Industry: Challenges, Progress & the Role of Education

In this session, we showcase a cross-sectoral collaboration in standard setting, capacity-building and implementation that supports the goal of reducing hazardous chemicals in wastewater discharge.

<https://www.roadmaptozero.com/event/wastewater-management-in-the-textile-footwear-and-leather-industry-challenges-progress-the-role-of-education-meetings@zdhc.org>

9.00 - 11.00

World Business Council for Sustainable Development (WBCSD); Conselho Empresarial Brasileiro para o Desenvolvimento Sustentável (CEBDS); Boticário Group Foundation; Iguá Saneamento; Public Ministry of Rio de Janeiro; The Nature Conservancy; Vale; Wetlands Construídos.

Pathways to water resilience in cities and the business sector

The event, a partnership between WBCSD, CEBDS, and other partners, addresses water resilience in cities and the business sector, exploring innovative solutions to deal with water-related challenges.

<https://youtube.com/live/mAR3wjGQdg0?feature=share> (Link Youtube in Portuguese) - <https://youtube.com/live/HR4V3AuQSeg?feature=share> (Link YouTube in English) cebds@cebds.org

9.00 - 10.30

Arado Comunicación Alternative (Surcos Digital) Foro de Confluencia Solidaria – Universidad de Costa Rica Movimiento Ríos Vivos – Costa Rica Federación Costarricense para la Conservación del Ambiente (FECON) Sustainable Water Network (AZ, USA) Pacto Ecosocial e Intercultural del Sur (Latin America) CENSAT Agua Viva (Colombia) Various Egyptian organizations behind the COP27 Coalition Institute for Policy Studies (USA) CODEPINK (USA)

The urgency of bringing fierce new voices to international water fora and decision-making tables to challenge corporate influence, corruption and a culture of fear -- and propose radical alternatives

The event will feature unvarnished dialogue among water and climate justice activists confronting and healing cultures of silence, brutality and exclusion in water decision-making.

<https://surcosdigital.com/side-event-for-un-2023-water-conference/> obeita@gmail.com

9.30 - 11.00

UNU CRIS, UN system: UNU-CRIS, UNU-MERIT, UNU-IAS, UNIDO - Uruguay Member state: Vice Ministry of Science and Technology, Government of Bolivia Civil society: Brazilian Institute for Development and Sustainability (IABS), Brazil Academic institution: Mayor de San Andres University, Bolivia Private Sector: Ding Tai Co., Ltd. Regional Organisation : IADB

16 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

Accelerating Circular Economy Based Solutions to Support SDG 6 Implementation in the Latin American and Caribbean (LAC) Region

Circularity for Sustainability : Seeking Solutions 'for and from' the Water Sector.

<https://cris.unu.edu/news-event> s (we will create the information about this event here)

nnagabhatla@cris.unu.edu

9.30 - 12.30

Humanitarian Openstreetmap Team (HOT), Open Street Map Niger, Ministry of Water Resources of Niger, Local stakeholders in Niger, RUWA

Project: Improve water access for communities through data collected with Open Street Map tools

<https://www.hotosm.org/>

roufaye.issaka@hotosm.org

9.30 - 10.30

Akvo

Data is the new water

Data and water have more than one can think in common and we would like to learn from the water sector to be better at data management.

<https://akvo-1891949.hs-sites.com/webinar/data-is-the-new-water>

emeline@akvo.org

10.00

Fundacion Futuro Latinoamericano, Quito Water Protection Fund (FONAG) and South South North (SSN)

Andean Water Fund Platform: a proposal to face the local challenges of joint watershed management in the Andean countries

Learn from the Andean Water Fund Platform, gathering ten locally-led financial mechanisms on a joint vision for source-water protection, mobilizing action and promoting multi-stakeholder partnerships.

<https://www.fla.net/es/proximos-eventos/>

info@fla.net

10.00

Alliance for Global Water Adaptation, Water Value LLC, Atlantean Media

How Startup Companies are Transforming Water Management through AI

Join a discussion on how startups and early stage companies are deploying AI to transform water management and improve decision making

17 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

<https://www.eventbrite.com/e/how-startup-companies-are-transforming-water-management-through-ai-tickets-558872090467>

paul@thewatervalue.com

10.00 - 11.15

Ruden AS, The Ministry of Energy and Water Resources - Somalia

How vintage oil & gas data enabled the identification of deep groundwater in Somalia

Ruden uses data from the O&G industry, to find deep fresh groundwater aquifers in Somalia and invites to learn more about this project and its inter-sectorial and inter-ministerial collaboration.

<https://rudenas.com/news/un-water-side-event-ruden>

manon@rudenas.com

10.30 - 11.45

International Water Association International Water Association; IHE Delft; Water Science Policy; International Union for Conservation of Nature (IUCN); YOUNGO - Water and Climate Working Group (Global); Swiss Water Partnership (Local); Grundfos

Communicating water: a game-changer for acceleration and innovation

This session will present a triple helix of water communication to support the effective acceleration and innovation within the sector, for maximum policy and advocacy impact.

9.00

NEWAVE

Rival waters: governance in contentious socio-hydrological contexts

Water conflicts, water grabbing and water injustice, all issues largely neglected in this conference, will be discussed in this session by a number of leading scholars in the field.

<https://www.nextwatergovernance.net/events/un-water-conference-newave-side-event-rival-waters> caterina.marinetti@vu.nl

9.00

Rural Water Initiative for Climate Action , Earth Watch Europe ,AMREF International, Water for People, IRC, Ministry of Water and Environment Uganda

CITIZEN SCIENCE FOR IMPROVING WATER QUALITY AND PUBLIC HEALTH: A HOLISTIC APPROACH

Achieving UNSDG6 requires a global commitment to water quality for water and health.

www.rwica.org ashafaith16@gmail.com

9.30 - 10.30

United Nations University, Institute for Environment and Human Security, United Nations University, Institute on Comparative Regional Integration Studies, Climate Energy and Water Research Institute, Pakistan Agricultural Research Centre, Deutsche Gesellschaft fuer Internationale Zusammenarbeit (GIZ) GmbH, Institute for Land and Community Resilience, Federal University of Technology, Nigeria, Zurich Re Flood Resilience Alliance / International Institute for

Applied Systems Analysis (IIASA), KAHR project / Institut für Raumordnung und Entwicklungsplanung (IREUS), Universität Stuttgart, Centre of Excellence on Climate and Disaster Resilience of the World Meteorological Organization and the UN Office for Disaster Risk Reduction (CoE WMO - UNDRR)

Understanding RECOVERY from WATER EXTREMES: A Multistakeholder Dialogue

In this session you will learn about recovery from extreme flood events. Participants will discuss what drives climate-resilient and sustainable recovery, whilst leaving no one behind.

<https://ehs.unu.edu/?p=25944> werners@ehs.unu.edu

10.00

Permanent Mission of the Principality of Andorra, Mountain Partnership Secretariat; Government of Andorra; Government of Italy, Government of Kyrgyzstan, Government of Uganda, World Meteorological Organization, World Bank

Mountains – Water towers for people and the planet

The event will present key recommendations for advancing sustainable mountain development to step-up action and accelerate political momentum.

<https://www.fao.org/mountain-partnership/events/event-detail/en/c/1631447/> contact@andorraun.org

10.00 - 11.30

EPLO Institute for Sustainable Development, EPLO Institute for Sustainable Development / Ministry of Environment and Energy, Greece / EYDAP / Growthfund / AC Laskarides Foundation

Managing the Urban River: The Environmental (E), Social (S) and Governance (G) aspects of providing water to 52.7% of Greece's population

Launch of the Urban River Chart for Sustainable safe and uninterrupted drinking water services.

<https://www1.eplo.int/isd> info@verture.eu

10.00 - 11.00

The Brooke, The International Coalition for Working Equids (ICWE) – The Brooke, The Donkey Sanctuary, SPANA, World Horse Welfare

Water, women and working animals - towards intersectoral, locally-owned solutions

We will present case studies of water projects around the world implemented through intersectoral, locally-owned partnerships, and shine a spotlight on the relationship between women, water & animals.

<https://thebrooke.org/water-conference-2023> anna.marry@thebrooke.org

39 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

10.00 - 11.00

WWF-International, Fundación Omacha, Colombia; Yayasan Konservasi RASI, Indonesia

A magic bullet: ensuring healthy rivers for river dolphins and people

This side-event shows how protected areas are protecting river dolphins, their rivers and the millions of people depending on them, measured with a new tool: CA|RDS - are these sites doing their job?

Interactive Dialogue
Conference Room 4

Lunch Break
1PM - 3PM

Afternoon
3PM - 6PM

Closing of the Conference
General Assembly Hall

3.00 - 4.30

Van Hall Larenstein University of Applied Sciences, Wageningen University & Research, Murdoch University, PIAREA Institute, Khulna University

Nature Based Solutions for Sustainable Riverine Systems

Students from four countries are presenting interesting riverine NBS cases and share experiences with the aim to learn from these cases.

www.hvhl.nl/welkom/nbs4sustainableivers nbs4sustainableivers@hvhl.nl

8.00

46 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

Women for Water Partnership (WfWP); Myanmar Water Academy (MyanWA), G100, Ecocivilisation, RASIT, GWP-SEA, WRTC International, Earth Forever, AHIC, Golden Plain, Women Plus Water - University of Saskatchewan

Co-Creation: The New Water Governance Paradigm

"CO-CREATION: The New Water Governance Paradigm" is a co-creation of eleven co-organizers thriving to accelerate the implementation of the objectives of the Water Action Decade in South East Asia.

<https://www.myanmarwatersacademy.com> info@myanmarwatersacademy.com

8.00 - 9.15

Living Lakes Canada, Asociacion Vivamos Mejo, Global Nature Fund, Action for Environmental Sustainability-Malawi, Fundación Humedales

International Opportunities and Benefits of Sharing Best NGO Practices in Community-Based Water Stewardship

This 75-minute side event will focus on the importance of international water stewardship and sharing on-the-ground community best practices.

<http://water2023.livinglakescanada.ca> communications@livinglakescanada.ca

8.30 - 10.00

Think tank (Re)sources

Access to water in health systems, schools and food markets of the Global South: challenges and solutions

Poor, degraded or lacking access to WASH services in the Global South poses a fundamental threat to education, health and food security, highlighting the close ties between utilities and facilities.

<https://www.thinktank-resources.com/events/access-to-water-in-health-systems-schools-and-food-markets-of-the-global-south-challenges-and-solutions/resources.thinktank@gmail.com>

8.00 - 9.30 (and 1.30 - 2.30)

AHAM Education Inc, Tzu Chi Foundation, Southeast Climate and Energy Network (SCEN), 7 Directions, Diversity in Aquatics (DIA), SWIMS Foundation, BlackCat Media, Prawanka

Water for Healing, Justice and Action: Building Blocks of a New Resiliency Paradigm

Building resiliency by restoring intergenerational water relationships for healing collective trauma, leveraging indigenous knowledge, and building eco-affinity through mindfulness and faith practices.

47 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

<https://www.ahameducation.org/unwater2023> info@ahameducation.org

9.00 - 10.00

NEWAVE, FNCA, GWP

Overcoming obstacles for reflexive research practice in water governance

The water governance science-policy interface lacks reflexivity and awareness of critical perspectives. Based on experiences of 15 early-stage researchers challenges and opportunities are discussed.

<https://www.nextwatergovernance.net/events/un-water-conference-newave-virtual-side-event> caterina.marinetti@vu.nl

9.00

UN Women, UNEP-DHI

Water for life: Achieving gender equality in a context of the water crisis

The side event will focus on presenting the latest available data on the status of the water crisis and its differentiated impact on women and girls, most especially women and girls in poor households.

<https://gendercoordinationandmainstreaming.unwomen.org/un-women-virtual-side-event-un-2023-water-conference> asha.meagher@unwomen.org

10.00 - 12.00

World Bank, Minister of Agriculture, Animal and Fisheries - SIIP/Burkina Faso, Minister of Agriculture -SIIP/Niger, Ministry of Agriculture, Rural Equipment and Food Sovereignty - SIIP/Senegal

Small-scale irrigation in the Sahel: Climate action

The side event will consist of a panel with representatives from Burkina Faso, Niger, and Senegal, moderated by the World Bank.

<http://www.agriculture.bf> azangre@hotmail.com

10.00 - 12.00

Association of Sabesp Engineers Water Museum - promoted by the Association of Sabesp Engineers / Education for peace at UNIPAZ - International University of Peace / Advocacy for the rights of rivers by the NGO MAPAS / The Saint-Laurent River case promoted by the Observatoire International des Droits de La Nature / Advocacy of International Rivers / Sharing selected case studies of Waterlution's 20 years of global collaborative innovation / Aqua Mater - Will bring a systemic vision around Water / AIDIS - Interamerican Association of Sanitary and Environmental Engineering

48 All the times in this side events programme are shown in Eastern Daylight Time (EDT).

Facilitating Access to knowledge about Water

Bring together actors from different parts of the world, who are positioned in their actions aimed at promoting, improving and facilitating access to knowledge about Water.

<https://www.aesabesp.org.br/2023/02/28/semana-da-agua-aesabesp-evento-em-programacao-da-onu-e-parceria-com-a-asec-cetesb/#israelh.pacheco@aesabesp.org.br>

10.00 - 12.00

Water-Culture Institute Indigenous Environmental Network; Tishman Environment and Design Center (at The New School)

Indigenous Water Ethics

The side session on Indigenous Water Ethics will provide an overview and case studies of Indigenous water values and discuss the implications for sustainable water policies.

<https://www.waterculture.org/copy-of-resources> dgroenfeldt@yahoo.com

11.00

The Voluntary Team Foundation for Humanitarian Action, Climate Specific Union, Carbon neutrality initiative, One Million Young Volunteers for Climate Adaptation Initiative, Climate Ambassadors

Historical rights in international rivers between climate changes and conflicts

Protecting the rights of the historical peoples of the downstream countries in international rivers so that they are not affected by any harm from the development projects of the upstream countries.
