tomorrow...

My plan for the future is to continue to grow Fragments Handicrafts and share my art with as many people as possible. I want to expand my reach beyond local trade fairs and art shows and create an online presence that will allow people from all over the world to discover and purchase my artwork. I also hope to use my platform to inspire and uplift others who may be going through their own dark times.

support needed

As a small business owner and artist, I could use support in several ways. First and foremost, I would appreciate it if people could spread the word about Fragments Handicrafts and my artwork. Sharing my website or social media pages with friends and family could help me reach new customers and gain more exposure. Additionally, I am always looking for opportunities to showcase my artwork in different venues or collaborate with other artists or brands. Lastly, purchasing my artwork is a great way to support my business and help me continue to create more pieces.
