

## OUR RESPONSIBILITY AND COMMITMENT TO A GREEN AND SUSTAINABLE FUTURE WE WANT

We believe, the real competitiveness of a business lies in its value created for stakeholders, for the society, for the planet we all rely on.

We believe, being a responsible company is not only a right thing to do, but also a mission must to complete.

We believe, even the smallest change can have a big impact on our community. Companies, large and small, should and can all play positive roles in advancing sustainable development.

We believe, with our joint endeavor, shared vision, and collective actions, we can build a green and sustainable future we want.

We Shanghai SenseTime Intelligent Technology Co., Ltd., hereby, pledge to support the 2030 Agenda for Sustainable Development, and we are committed to the following principles:

1. Create and continuously improve conditions for sustainable and inclusive economic growth, as well as shared prosperity for all;
2. Incorporate sustainable development goals into business strategy, day-to-day operations and organization culture;
3. Undertake initiatives and take actions to move towards more sustainable patterns of consumption and production;
4. Realize sustainable management and efficient use of natural resources;
5. Reduce greenhouse gas emissions and increase substantial share of renewable energy;
6. Reduce waste generation, achieve chemical and all waste management throughout the life cycle;
7. Encourage the development, upgrading and diffusion of environmentally friendly technologies and innovation;
8. Advance responsible business practices towards sustainable development to all stakeholders including peers, partners, clients, consumers and the public;
9. Combat inequity and promote inclusiveness within organization and associated business ecosystem;
10. Enhance international cooperation to facilitate access to new technologies and practices.

Sincerely,
