Fourth International Conference on Small Island Developing States

The Antigua and Barbuda Agenda for SIDS (ABAS) – a Renewed Declaration for Resilient Prosperity - Agreed ad ref

I. The SIDS Story

1. In 1992, at the United Nations Conference on Environment and Development, we, the international community formally declared Small Island Developing States (SIDS) a special case both for environment and development and committed to assist them to meet their sustainable development objectives. This was further promulgated in the first decennial United Nations conference on SIDS in Barbados in 1994 and was subsequently reiterated at the second SIDS conference in Mauritius in 2005 and the third SIDS conference in Samoa in 2014. Agreed ad ref

2. After three decades and three programmes of action, SIDS remain a special case for sustainable development given their unique vulnerabilities. We note the remarkable successes and progress that they have made over these years, and welcome in this regard the ownership, leadership and considerable efforts that have been demonstrated by SIDS, along with the support provided by the international community. Agreed ad ref

3. During this period, SIDS have and continue to provide stable and democratic governance for their citizenry and have strived to provide productive economies and safe societies throughout unrelenting turbulent global times. SIDS were heavily affected by two “once in a generation”, crises that struck in 2008 and 2020, while grappling with even more intense and frequent disasters and natural hazards. In addition, they have assumed leadership roles in areas such as finance, climate change and plastics, and are stewards of the ocean, including managing 19.1 percent of the world’s Exclusive Economic Zones and the resources they hold. SIDS have paved the way for many of the most progressive movements in these areas in policy development and the establishment of concrete actions in the multilateral arena. Agreed ad ref

4. We remain concerned that SIDS are facing the unrelenting and compounding impacts of climate change, biodiversity loss, pollution, disasters and natural hazards, health and other social related challenges and economic vulnerabilities,
as well as the progressive deterioration in their ability to withstand external shocks and enhance their resilience. Successive global crises, along with the COVID-19 pandemic have further exacerbated and negatively compounded the sustainable development of SIDS. *Agreed ad ref*

5. SIDS are inherently and uniquely vulnerable to exogenous shocks owing to, inter alia, their small size, geographical remoteness, highly dispersed populations, the limited scale and undiversified nature of their economies, high dependence on external markets, and extreme exposure to disasters and natural hazards, and the effects of climate change. Recognizing vulnerability does not mean that SIDS exhibit weakness or lack potential for development. Rather, it means recognizing that they are disproportionately impacted in terms of physical destruction and non-economic and economic losses to a far greater scale than elsewhere *Agreed ad ref*

6. SIDS are particularly vulnerable to adverse impacts of climate change, including, inter alia, erratic precipitation, increasingly frequent and extreme weather phenomena, more frequent and severe tropical cyclones, floods and drought, diminishing fresh water resources, desertification, coastal erosion, land degradation and sea-level rise, which represent the gravest of threats to the survival and viability of their people, natural ecosystems, and overall sustainable development. We take note of the concerns expressed by SIDS that the impacts of climate change could have possible implications on SIDS, including humanitarian, economic, social, cultural, ecological and, as exacerbated by other factors, security consequences. *Agreed ad ref*

7. In order for SIDS to achieve sustainable development and resilient prosperity, we must assist SIDS to diversify economies and strengthen state and productive capacities. At the same time the international financial architecture should go further to fully address SIDS’ unique development circumstances and make accessing concessional finance easier for them, which could mitigate SIDS’ fiscal constraints and reduce the risk of indebtedness, especially for highly indebted SIDS, and prevent the reversal of hard-earned development gains. Therefore, the special case of SIDS must continue to be recognized by the international community and must take into account these new and emerging challenges. *Agreed ad ref*

8. We recognize SIDS’ need for access to affordable, reliable, sustainable, and modern energy, particularly renewable energy. SIDS are facing significant barriers related to accessing finance, cost of capital, market readiness, and
upskilling and reskilling workforces needed for just, inclusive, and resilient energy transitions.  \textit{Agreed ad ref}

9. We reaffirm the importance of freedom, peace and security, respect for all human rights, including the right to development and the right to an adequate standard of living, including the right to food, the rule of law, gender equality, women’s empowerment, reducing inequalities and the overall commitment to just and democratic societies for development.  \textit{Agreed ad ref}

10. We recognize that gender equality and women’s empowerment and the full realization of human rights for women and girls have a transformative and multiplier effect on sustainable development and are a driver of economic growth in small island developing States. Women can be powerful agents of change.  \textit{Agreed ad ref}

11. SIDS aspire to a resilient form of prosperity, that is reflected in sustainable development for all in their countries, where economic growth and well-being are sustained and their economies are robust, diversified, adaptable and able to withstand shocks, ensuring social equity, and promoting environmental sustainability.  \textit{Agreed ad ref}

12. The next ten years are critical for SIDS. A new context is emerging wherein the economic, social and environmental as well as geopolitical threats to SIDS development are so great that they can only be ameliorated by a reinvigorated enabling environment that gives meaningful effect to their sustainable development. Without the full support of the international community, SIDS will endure potentially far-reaching consequences.  \textit{Agreed ad ref}

13. We reaffirm the continued applicability of the Barbados Programme of Action (BPOA) adopted in 1994, the Mauritius Strategy of Implementation (MSI) of 2005, and the SIDS Accelerated Modalities of Action (SAMOA) Pathway of 2014 as blueprints setting out the sustainable development priorities of SIDS.  \textit{Agreed ad ref}

14. We recommit to the full and timely implementation of the 2030 Agenda for Sustainable Development, the Addis Ababa Action Agenda of the Third International Conference on Financing for Development and the United Nations Framework Convention on Climate Change and the Paris Agreement\textsuperscript{1}, as well as

\textsuperscript{1} Adopted under the UNFCCC in FCCC/CP/2015/10/Add.1, decision 1/CP.21.
the Sendai Framework for Disaster Risk Reduction 2015–2030, the New Urban Agenda, the Kunming-Montreal Global Biodiversity Framework and other relevant intergovernmentally agreed development outcomes, frameworks and instruments. *Agreed ad ref*

15. We reaffirm all the principles of the Rio Declaration on Environment and Development, including, inter alia, the principle of common but differentiated responsibilities, as set out in principle 7 thereof. *Agreed ad ref*

16. We, the Heads of State and Government and high-level representatives, having met in St. John’s, Antigua and Barbuda from 27 to 30 May 2024, at the fourth International Conference on Small Island Developing States, with the participation of civil society, the private sector, youth, academia and other relevant stakeholders, firmly reaffirm our commitment to support SIDS on their pathway to achieving sustainable development and resilient prosperity, where the progress of today does not compromise the possibilities of tomorrow, through targeted, results-focused interventions and investments, we will support SIDS as they exercise full ownership of their new agenda and seek to establish partnerships as equals, upholding values of equity, national ownership, mutual trust, transparency and accountability, and cooperation and promoting benefits across priority areas in their new 10-year agenda. *Agreed ad ref*

## II. What Do SIDS Want?

### A. Build Resilient Economies

17. Enhancing inter-island connectivity and linking SIDS economies to regional markets and global supply chains, including by integrating them into existing and emerging maritime and multimodal transport and economic corridors, and encouraging sustainable transport initiatives to support SIDS remains key. *Agreed ad ref.*

18. We underscore that SIDS face substantial structural challenges building the necessary ecosystem, institutions and capacity for promoting and using science, technology, innovation and digitalization to drive economic growth and sustainable development. *Agreed ad ref*

19. SIDS face significant challenges in data collection, analysis, technical and institutional capacity, which hinders evidence-informed policy making, monitoring progress and accessing development financing, and we emphasize
that capacity building for a stronger data governance and management will allow SIDS to support better data collection, protection, transparency, and data sharing. **Agreed ad ref**

20. We welcome and call for support for the efforts of SIDS in establishing a SIDS Center of Excellence in Antigua and Barbuda that will be launched at the Fourth International Conference on SIDS which will include, inter alia, a SIDS Data Hub, a technology and innovation mechanism and an Island Investment Forum. **Agreed ad ref**

21. Acknowledging that SIDS are highly dependent on imports, with limited export capacity, and face current account deficits and limited fiscal space, compounded by limited access to concessional financing, SIDS seek the support of the international community to: **Agreed ad ref**

   i. Develop and expand their productive capacity by:
      a. Undertaking National Productive Capacities Gap Assessments (NPCGAs); **Agreed ad ref**
      b. Implementing Holistic Productive Capacities Development Programmes (HPCDPs); and **Agreed ad ref**
      c. Investing in higher productivity sectors including in advanced technologies and digital economy to provide better paying jobs for people in SIDS and reduce brain drain and labour mobility. **Agreed ad ref**

   ii. Increase trade and investment by:
      a. Designing prioritized trade and investment strategies to consolidate market opportunities in existing sectors and markets and identify opportunities for economic diversification to reduce vulnerability; **Agreed ad ref**
      b. Enabling market access, in goods and services for SIDS by considering trade rules, as appropriate, that take into account the special circumstances of SIDS, and encouraging the full utilization of preferential market access by improving the application of trade rules and their transparency for SIDS, in compliance with World Trade Organization commitments; **Co-Chairs proposal**
c. Strengthening local, national, and regional institutions as well as the regulatory and domestic policy environment and trade facilitation bodies; *Agreed ad ref.*

d. Enabling business environments for private sector investment, entrepreneurship, especially micro, small and medium-sized enterprises, cooperatives and enterprise development; *Agreed ad ref.*

e. Strengthening capacity for resource mobilization, investment flows monitoring, and firm-level data collection, analysis and use; *Agreed ad ref*

f. Supporting the establishment of the biennial Island Investment Forum in the SIDS Center of Excellence as a dedicated platform for promoting sustainable economic development in SIDS by promoting investment opportunities, knowledge exchange, and collaborative initiatives, addressing the unique challenges faced by SIDS and contributing to their long-term resilience and prosperity; and *Agreed ad ref.*

g. Reviewing and reforming old-generation investment treaties that are in force for SIDS, where desired, with the aim of safeguarding policy space to pursue sustainable development objectives. *Agreed ad ref*

iii. Promote resilient and sustainable tourism by:

a. Minimizing pollution and waste, enhancing environmental awareness, conserving and protecting the environment, respecting wildlife, biodiversity, ecosystems and cultural diversity; *Agreed ad ref*

b. De-risking investments, strengthening cross sector collaboration between tourism and other sectors, and modernizing the sector and related up and downstream services; *Agreed ad ref*

c. Raising awareness of the importance of resilient and sustainable tourism, including through the Global Tourism Resilience Day²; *Agreed ad ref*

d. Developing creative and innovative employment solutions, including for informal workers, to provide resilience to the workforce, taking into account national circumstances; *Agreed ad ref*

e. Enhancing entrepreneurship, education and training in cultural and heritage management and preservation, and in specific domains of the creative industries; and *Agreed ad ref*

² Resolution 77/269
f. Promoting and investing in the resilience of cultural heritage, traditions and customs, assets and infrastructure. *Agreed ad ref*

iv. Promote sustainable ocean-based economies by:

a. Assisting in the pursuit of opportunities in sustainable fisheries, aquaculture, mariculture, marine and coastal tourism, ocean-based renewable energy, and mineral and other related resources, sustainable shipping and maritime transport and ports; *Agreed ad ref*

b. Establishing public-private sector partnerships and appropriate capital market instruments and provide technical assistance to stock exchanges and security market regulators to enhance bankability and feasibility of projects; and *Agreed ad ref*

c. Creating and supporting an enabling policy environment to maximize diaspora remittances, investment, skills and experience for research, innovation, economic development and diversification to shift towards environmentally sustainable practices and technologies. *Agreed ad ref*

A. **Foster safe, healthy and prosperous societies**

22. We underline the need to promote peaceful, prosperous, inclusive societies and safe communities for achieving sustainable development, and to build effective, accountable and inclusive institutions at all levels. Good governance, rule of law, human rights, fundamental freedoms, equal access to fair justice systems, and measures to combat corruption and curb illicit financial flows will be integral to our efforts. *Agreed ad ref*

23. We remain concerned that poverty, including extreme poverty, unemployment, inequality and exclusion continue to disproportionately affect people in vulnerable situations, particularly women, children, youth, persons with disabilities and older persons, reduces the potential productive capacities in SIDS. These challenges are compounded by youth unemployment, loss of skilled and semi-skilled labour, through labour mobility, and gender inequality, including unpaid care and domestic work. *Co-Chairs proposal*

24. The inadequacy of SIDS’ health and social protection systems, and the prevalence of communicable and non-communicable diseases (NCDs) in SIDS, pose a threat to sustainable development and economic productivity,
disproportionately affecting the poorest and those in vulnerable situations. 

*Agreed ad ref*

25. Acknowledging the efforts of SIDS to improve the health and social protection systems, boost state capacity in the public sector, reduce poverty, unemployment, inequality and exclusion, SIDS seeks the support of the international community to: *Agreed ad ref*

i. Strengthen health systems by:

   a. Promoting and ensuring equitable and timely access to affordable and quality health-care services in order to achieve universal health coverage (UHC), leaving no one behind, noting that any external financing should be aligned with national and regional priorities; *Co-Chairs proposal*

   b. Developing nationally-appropriate, inclusive social protection systems, including through the One Health approach and other holistic approaches as well as the integration of climate and health policies, *Agreed ad ref*

   c. Enhance prevention, preparedness and response to better cope with health emergencies, epidemics, pandemics and climate change-related health impacts through capacity building, upgrading of surveillance and early warning systems and adapting sustainable infrastructure and equipment so that it is climate-resilient, low greenhouse gas emission and sustainable; *Agreed ad ref*

   d. Integrating essential non-communicable diseases (NCDs) and mental health services into PHC and UHC; *Agreed ad ref*

   e. Enhancing health literacy to promote healthy lifestyles and preventive measures to address NCD risk factors, including obesity, unhealthy diets, physical inactivity, harmful use of alcohol, tobacco use and exposure to air pollution and addressing the linkages between the environment and nutrition; *Agreed ad ref*

   f. Establishing an integrated and whole-of-government approach to address the growing challenges of vision impairment, particularly myopia and other preventable conditions, including integrating comprehensive eye care services as part of PHC and UHC; and *Agreed ad ref*
g. Building and retaining a trained, skilled, efficient and motivated health workforce that is equipped to meet the health needs of the population at all levels. *Agreed ad ref*

ii. Build strong institutions by:

a. Increasing public participation and consultation, promoting civic education and engaging civil society organizations to actively and meaningfully participate in policy and budget decisions, including by establishing citizen participation mechanisms and creating spaces for inclusive dialogue; *Agreed ad ref*

b. Strengthening coordination and collaboration among government institutions and working beyond traditional boundaries to unify capabilities across agencies, sectors and society; *Agreed ad ref*

c. Strengthening the synergy between public policy planning and financing through integrated national financing frameworks to increase the expenditure efficiency of public resources, as a complement to resource mobilization from all sources; *Agreed ad ref*

d. Investing in continuous education and training and professional development programs for public servants, and building public sector skillsets for the future, including in improving the agility of public service delivery and public procurement; *Agreed ad ref*

e. Designing systems for government institutions to generate effective policies and investment decisions; *Agreed ad ref*

f. Boosting state capacity to effectively implement policies through the strengthening of public sector reforms, building effective, accountable and inclusive institutions at all levels, and improving transparency and accountability; *Agreed ad ref*

g. Incorporating and strengthening e-government and digital solutions as a means of overcoming accessibility, scale and dispersion of population, bridging the digital divides and supporting the institutional capacity of local and national government institutions; and *Agreed ad ref*

h. Assisting national and regional institutions to combat transnational crime and violence, including drug trafficking, and the illicit trade in small arms and light weapons, taking into account SIDS national circumstances. *Agreed ad ref*
iii. Achieve gender equality, empower youth and leave no one behind by:

a. Promoting and protecting the full realization of the human rights of all women and girls, and eliminating all forms of discrimination and of violence against all women and girls, including inter alia by developing and implementing gender responsive action plans; (Previous 24(iii)(a)) Agreement ad ref

b. Increasing women’s leadership, and promoting their full, equal, and meaningful participation and representation at all stages and levels of decision-making processes; Agreement ad ref

c. Investing in policies and programmes in productive capacities, education and skills that would also address emerging issues among children, young people, particularly boys and young men, taking into account national circumstances; Agreement ad ref

d. Meaningfully involving youth in decision-making processes as appropriate, including through youth councils, and advisory committees, supporting youth-led initiatives, and creating opportunities for engaging youth in sustainable development; Agreement ad ref

e. Promoting and protecting the full realization of the human rights of persons with disabilities, and enabling their full, equal, meaningful and effective participation, representation and leadership in decision-making, addressing stigma and discrimination, eliminating violence, and increasing their access to economic opportunities, education and health care; Agreement ad ref

f. Strengthening adaptive social protection systems and expanding coverage of national social protection programs through comprehensive risk management strategies, to promote the realization of equity and equality, particularly for those in vulnerable situations, including women, children, youth, persons with disabilities and older persons; Agreement ad ref

g. Investing in developing the skills of and fostering opportunities to pursue alternative livelihoods for communities displaced by disasters, many of which are exacerbated by climate change, while recognizing the importance of safeguarding and passing on tangible and intangible cultural heritage from generation to generation and ensuring their financial, economic and social inclusion so that they can leverage their talent and ideas to contribute to, and benefit from, their new communities; and Agreement ad ref
h. Supporting the advancement of sports as an important enabler of sustainable development, including for its growing contribution to the realization of development and peace in its promotion of tolerance and respect and the contributions it makes to the empowerment of women, young people, children, in particular girls, individuals and communities as well as to health, education and social inclusion objectives. Agreed ad ref

B. A secure future

26. Recognizing that various anthropogenic pressures and adverse impacts of climate change as well as global shocks continue to impede water availability and food and energy security, and further recognizing the importance of access to affordable, reliable, sustainable, and modern energy, and connectivity, SIDS seek the support of the international community to; Co-Chairs proposal

i. Foster sustainable energy transitions and energy efficiency, and ensure access to affordable, reliable, sustainable, and modern energy, based on all energy sources, in particular renewable energy sources, by: Co-Chairs proposal

   a. Urgently enhancing support, investment and partnerships for just, inclusive, equitable, and resilient energy transitions and energy efficiency, including clean and renewable energy infrastructure, technology and training, with a view to fulfilling SIDS’ bold and ambitious renewable energy targets for the next decade; Agreed ad ref

   b. Addressing the underlying barriers in accessing and mobilizing finance to deploy renewable energy, including enabling environments and policy, legal and regulatory frameworks; Agreed ad ref

   c. Developing SIDS-specific technologies and applications for renewable energy deployment, and integration into the power system, and promoting efforts to reduce the cost of capital for renewables; and Agreed ad ref

   d. Providing support to overcome the structural barriers that hinder just, inclusive, resilient energy transitions, including institutional capacity, particularly skills gaps, and grid stabilization and upgrading. Agreed ad ref
ii. Develop integrated water resources management by:

a. Developing policies, legislative frameworks, institutional and human capacities for the effective, inclusive, sustainable and integrated water resources management and facilitate the expansion of wastewater treatment, recycling and reuse; *Agreed ad ref*

b. Significantly reducing the impact of climate change on water scarcity through enhancing climate resilience to water-related hazards and supporting a climate and disaster resilient water supply and sanitation, and access to safe and affordable potable water and sanitation, and hygiene for all; and *Agreed ad ref*

c. Providing appropriate gender-sensitive and disability-inclusive facilities and infrastructure for safe drinking water, sanitation, and hygiene, and waste management systems. *Agreed ad ref*

iii. Enhance food security by:

a. Developing and implementing adaptation and mitigation strategies that take into account the linkages between food, water and energy, such as integrating climate-resilient infrastructure and promoting sustainable agricultural practices and the deployment of agricultural technologies that are resilient to the adverse impacts of climate change; *Agreed ad ref*

b. Increasing sustainable agriculture and fisheries, food security and nutrition and livelihoods in SIDS in a manner that helps with climate adaptation, mitigates emissions and promotes sustainable use of biodiversity, including through incubation, diversification, local value addition, climate-resilient best practices, and promoting, scaling up and replicating locally grown ideas, to accelerate the achievement of sustainable agriculture and fisheries, food security, and good and improved nutrition, as well as improved overall health and wellbeing; and *Agreed ad ref*

c. Developing sustainable food and agricultural production, that is resilient to the impacts of climate change, address water availability, and efficiently uses water resources, improving supply and distribution of food, including the reduction of food loss and waste, and enhancing
resilience to potential excessive food price volatility and food crises. 

*Agreed ad ref*

iv. Build resilient infrastructure by:

a. Scaling up planning, development and management of quality, reliable, sustainable and resilient infrastructure and energy efficient land, marine and air transportation systems; and *Agreed ad ref*

b. Applying the Principles for Resilient Infrastructure in SIDS to create risk-informed policy, investment decisions and systems in sectors including transportation, energy, communications, water, health and education, with a view to nurturing a culture of maintenance for resilient societies. *Agreed ad ref*

v. Enhance transportation and connectivity to link SIDS economies to regional markets and global supply chains by:

a. Investing in sound, safe, sustainable, climate resilient, and affordable land, air, maritime and inter-islands transportation infrastructure, including traditional and sustainable modes, that is inclusive for all, with a focus on community engagement and empowerment; *Agreed ad ref*

b. Developing and implementing climate and disaster resilient, safe, affordable, accessible and well-maintained sustainable transportation infrastructure in SIDS, in line with the Principles for Resilient Infrastructure, including to remote and underserved communities, taking into account the local impacts of climate change, to ensure the longevity of transport infrastructure; *Agreed ad ref*

c. Establishing integrated and sustainable maritime and air transportation systems to foster regional economic and value chain integration, improving inter-island connectivity, modernizing transport fleets and equipment; and *Agreed ad ref*

d. Developing coordinated regional transportation, fostering connectivity between SIDS and neighboring regions to strengthen economic ties and facilitate movement of goods and people. *Agreed ad ref*

C. Environmental Protection and Planetary sustainability
27. We acknowledge that the widespread, rapid and adverse impacts of climate change continue to pose increasing risks to SIDS and their efforts to achieve sustainable development, while representing, the greatest threats to the survival, and viability of their people and natural ecosystems. Even with limiting global warming to 1.5 degrees Celsius above pre-industrial levels, SIDS will continue to incur severe loss and damage. *Agreed ad ref*

28. SIDS are gravely concerned that global emissions are not in line with modelled global mitigation pathways consistent with the temperature goal of the Paris Agreement, and that there is a rapidly narrowing window out to 2030 to raise ambition and implement existing commitments in order to keep warming to 1.5 °C above pre-industrial levels within reach, which is crucial to the sustainable development of SIDS. *Agreed ad ref*

29. SIDS have extraordinary marine and terrestrial biodiversity that, in many cases, is fundamental to their livelihoods, culture and identity, but SIDS’ vulnerabilities are drastically limiting the resources and means by which they can protect their ecosystems and the natural environment. The ocean and its resources are under considerable stress from anthropogenic sources, impacting SIDS which are especially dependent on their maritime resources for their food security and livelihoods. *Agreed ad ref*

30. SIDS seek the support of the international community to: *Agreed ad ref*

i. Urgently take action on climate change by:

a. Accelerated actions on the effective implementation of the UNFCCC and the Paris Agreement, guided by science and agreed principles; *Co-Chairs proposal*

b. Supporting the recruitment and development of technical expertise to facilitate the development of loss and damage response plans and actions, including risk assessment, loss modelling, governance, management, disbursement, monitoring, evaluation and reporting on loss and damage solutions and impacts; *Agreed ad ref*

c. Recognizing the important role of forests in climate mitigation and adaptation, including through promoting the adoption and implementation of reducing emissions from deforestation and forest degradation, on the role of conservation and sustainable management
of forests in developing countries, as well as other alternative policy approaches in small island developing States, including those with high forest low deforestation (HFLD) regions, as per article 5.2 of the Paris Agreement, on national or, an interim basis, subnational jurisdictional scales, can foster information exchange, expertise-sharing and collective problem-solving, fostering a united effort in addressing climate mitigation and adaptation goals, and also noting it is essential for those small island developing States that have maintained forest cover and other ecosystems such as mangroves, seagrass, peatlands, old-growth forests, and marshes, over decades of sustainable management and use to pursue opportunities to mobilize financing in this regard *Agreed ad ref*

ii. Conserve and sustainably use the ocean and its resources by:
   a. Ensuring the conservation and sustainable use of marine resources, including through sustainable management of aquaculture, mariculture, tourism and fisheries, such as through the implementation of measures to end Illegal, Unreported and Unregulated (IUU) fishing for mutually reinforcing economic and environmental benefits; *Agreed ad ref*
   
   b. Addressing biodiversity loss caused by harmful human activities including inadequate waste management and unsustainable production and consumption; including of plastics; overfishing; Illegal, Unreported and Unregulated (IUU) fishing; introduction of alien invasive species; noise and light pollution; coral bleaching, ocean acidification, eutrophication and Harmful Algal Blooms (HABs); and coastal erosion, including through measures such as inter alia satellite monitoring, and the establishment and strengthened management of area-based management tools, including Marine Protected Areas and Integrated Coastal Zone Management (ICZM); and other effective area-based conservation measures (OECMS) and locally managed marine areas (LMMAs); and *Agreed ad ref*
   
   c. Strengthening partnerships at the sub-regional, regional and international levels to prevent and reduce plastic pollution in the marine environment and support investment in modern integrated solid waste management systems. *Agreed ad ref*

iii. Conserve, restore and sustainably use biodiversity by:
a. Developing, enhancing, and applying environmental statistics frameworks in their national statistical systems, such as Natural Capital Accounting Framework including ecosystems services valuation, to assess the contribution, of natural ecosystems to economies, and inform policy decisions and development; *Agreed ad ref*

b. Support SIDS to identify financing and capacity gaps in meeting biodiversity objectives and develop partnerships, particularly with the private sector, to develop innovative strategies to bridge these gaps; *Agreed ad ref*

c. Updating the programme of work on island biodiversity adopted under the Convention on Biological Diversity, particularly in the context of the ongoing process to identify scientific and technical needs of SIDS; *Agreed ad ref*

d. Developing an island biodiversity capacity-building and development action plan, on the basis of the review of the capacity, and technology absorption and sustaining abilities of SIDS and in line with the program of work on island biodiversity; and *Agreed ad ref*

e. Acknowledging the important roles and contributions of Indigenous Peoples and local communities as custodians of biodiversity and as partners in its conservation, restoration and sustainable use; and ensuring the rights, knowledge, including traditional knowledge associated with biodiversity, innovations, worldviews, values and practices of Indigenous Peoples and local communities are respected, and documented and preserved with their free, prior and informed consent, including through their full and effective participation in decision-making, in accordance with relevant national legislation, international instruments, including the UN Declaration on the Rights of Indigenous Peoples, and human rights law. *Co-Chairs proposal*

iv. Mainstream Disaster Risk Reduction by:

a. Increasing local, national and regional capacity, particularly among key national agencies, to improve coordination with international, regional and humanitarian partners and donor governments, as appropriate, to prevent and reduce disaster risk and to respond to intensifying disasters; *Agreed ad ref*

b. Building more robust multi-hazard risk governance, including the development of national legislative frameworks for disaster risk
reduction and strengthened local authorities and community-based disaster risk management approaches that can capture whole of government and whole of society actions that are also gender-responsive and disability-inclusive; *Agreed ad ref*

c. Strengthening disaster preparedness, including multi-hazard early warning systems and capacity to take early action, through initiatives such as the Early Warnings for All (EW4ALL) and the Climate Risk Early Warning Systems (CREWS), timely evacuation planning, planning for relocation of communities, and developing post-disaster needs assessments; *Agreed ad ref*

d. Implementing creative arrangements and risk reduction mechanisms that allow SIDS to access low and concessional financing rates, including government guarantees and insurance schemes, as appropriate; and *Agreed ad ref*

e. Reducing disaster risks, including by building protective infrastructure and enhancing resilience of freshwater and other water systems, and using the recovery, rehabilitation and reconstruction phases after a disaster to increase resilience, and developing systems for managing evacuations and the distribution of basic relief support. *Agreed ad ref*

### III. How Do SIDS Get There?

31. While acknowledging the primary responsibility of small island developing States for their own sustainable development, we recognize that the persistent development challenges of the small island developing States require enhanced global partnership for development, adequate provision and mobilization of all means of implementation and continued international support to achieve internationally agreed goals. *Agreed ad ref*

32. Therefore to realize The Antigua and Barbuda Agenda for SIDS by 2034, we, the international community, commit to the following actions: *Agreed ad ref*

#### A. Build Economic Resilience

i. Reform the international financial architecture and address gaps and shortfalls, and facilitate easier access to affordable and concessional finance by: *Agreed ad ref*
a. Considering how best multidimensional vulnerability could be incorporated into existing practices and policies for debt sustainability and development support, including access to concessional finance, and look forward to the intergovernmental process to consider the recommendations presented in the final Report of the High - level Panel on the Development of a Multidimensional Vulnerability Index for Small Island Developing States, which can also provide a basis for moving forward in this direction; **Agreed ad ref**

b. Expanding multilateral lending to SIDS, while maintaining financial sustainability of multilateral development institutions, and taking note of the Heads of MDBs Group’s identification of capital adequacy measures which could potentially yield additional lending headroom in the order of up to USD 400 billion over the next decade, with a view to strengthening support for SIDS in achieving resilient prosperity; and **Agreed ad ref**

c. Ensuring SIDS representation and participation, as well as other developing countries, in decision-making in global economic and international financial institutions in order to deliver more effective, credible, accountable and legitimate, institutions, giving due consideration to SIDS, priorities and needs and perspectives in the process. **Co-Chairs proposal**

ii. Increase effectiveness of development finance by:

a. Improving donors’ aid effectiveness, development cooperation and donor coordination in line with SIDS national and regional priorities and needs including through the SIDS Principles for Development Effectiveness as appropriate; and **Agreed ad ref**

b. Promoting a risk-informed approach to investment and financing in SIDS so that all development finance strengthens resilience and accelerates the development aspirations of SIDS. **Agreed ad ref**

iii. Supporting the sustainable management of debt by:

a. Considering the establishment of a dedicated SIDS Debt Sustainability Support Service to enable sound debt management and devise effective solutions for SIDS in relation to debt vulnerability in the immediate term and debt sustainability in the long term, building on and avoiding duplication with relevant dedicated initiatives; and **Agreed ad ref**
b. Considering the use of state-contingent instruments to strengthen borrower resilience and increase the ability of SIDS to withstand economic shocks. *Agreed ad ref*

d. Increase investments in SIDS by:
a. Strengthening capacity for resource mobilization investment flows monitoring, firm-level data collection and analysis, as well as trade related support to strengthen investment promotion agencies in SIDS to attract stable and development-conducive foreign direct investment and other private capital flows, in accordance with national circumstances, priorities and legislation. *Agreed ad ref*

v. Enable youth economic participation by:
a. Harnessing the demographic dividend by equipping youth with education and skills including through capacity building and training initiatives to pursue opportunities in traditional, emerging and innovative economies; and *Agreed ad ref*
b. Supporting youth-driven startups, providing financial backing, mentorship, and resources to cultivate a new generation of entrepreneurs and steer SIDS toward economic resilience and diversification through innovation. *Agreed ad ref*

**B. Scale-up climate action and support, including climate finance, in line with existing commitments and obligations under UNFCCC and the Paris Agreement** *Agreed ad ref*

i. Accelerated actions towards full and effective implementation of the UNFCCC and the Paris Agreement by: *Agreed ad ref*

a. Taking urgent actions to hold the increase in the global average temperature to well below 2 degrees Celsius above pre-industrial levels and pursue efforts to limit the temperature increase to 1.5 degrees Celsius above pre-industrial levels and to accelerate action in this critical decade on the basis of the best available science, reflecting equity and the principle of common but differentiated responsibilities and respective capabilities in the light of different national circumstances and in the context of sustainable development and efforts to eradicate poverty; *Co-Chairs proposal*
b. Implementing the decisions adopted at sessions of the Conference of the Parties to the UNFCCC and the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement; Agreed ad ref

c. Timely support for action on adaptation through, inter alia, the operationalisation and implementation of the UAE Framework for Global Climate Resilience to guide the achievement of the global goal on adaptation and the review of overall progress in achieving it with a view to reducing the increasing adverse impacts, risks and vulnerabilities associated with climate change, as well as to enhance adaptation action and support. Agreed ad ref

d. Phasing out inefficient fossil fuel subsidies that do not address energy poverty or just transitions, as soon as possible in a nationally determined manner, taking into account the Paris Agreement different national circumstances, pathways and approaches; Co-Chairs proposal

e. Accelerating and substantially reducing non-carbon dioxide emissions globally, including in particular methane emissions by 2030, in a nationally determined manner, taking into account the Paris Agreement, different national circumstances, pathways and approaches, while providing targeted support to enable small island developing state to address non-CO2 emissions; Co-Chairs proposal

f. Providing climate finance by developed countries to SIDS in line with existing obligations and commitments under the UNFCCC and the Paris Agreement; Co-Chairs proposal

g. Strengthening, and mobilizing and providing financial resources to, existing multilateral climate funds, including the Green Climate Fund, Global Environment Facility and its Special Climate Change Fund, and the Adaptation Fund; Agreed ad ref

h. Harmonizing, as appropriate, and simplifying the application requirements, as well as access and approval procedures for climate financing instruments, and continuing to advocate for dedicated financing and programs for SIDS, including advocating for minimum allocation funding criteria for SIDS, as appropriate to address, inter alia, the current high barriers and transaction costs, especially for financing small sized projects for SIDS; Agreed ad ref

i. Providing technical support for SIDS for the development of carbon markets in accordance with Article 6 of the Paris Agreement, as well as
the further development of private financial products such as green and blue bonds; *Agreed ad ref*

j. Providing resources, recognizing the urgent and immediate need for new, additional, predictable and adequate financial resources to assist developing countries that are particularly vulnerable to the adverse impacts of climate change in responding to economic and noneconomic loss and damage associated with the adverse effects of climate change with special consideration for SIDS *Agreed ad ref*

k. Urgently operationalizing and further capitalizing the new fund for responding to loss and damage, ensuring that SIDS priorities and needs are also considered in the context of access and resource allocation and the development of programmatic, nationally-led approaches, with due regard for the governing instrument of the fund and special consideration for SIDS; *Agreed ad ref*

l. Addressing the significant challenges small island developing states face in accessing climate finance for implementing their national adaptation plans; *Agreed ad ref*

m. Activating private sector finance for climate mitigation and adaptation, with a view to strengthening financial support for SIDS in achieving resilient prosperity; *Co-Chairs proposal*

**C. Scale-up biodiversity action**

i. Accelerated and urgent actions to halt and reverse biodiversity loss by: *Agreed ad ref*

   a. Advancing, by Parties to the CBD, the full and effective implementation of the CBD COP decisions, including the KMGBF - *Agreed ad ref*
   
   b. Ensuring adequate financial and technical support for SIDS, and timely operationalization and capitalization of the Global Biodiversity Framework Fund; *Agreed ad ref*

**D. Conserve and sustainably use the ocean and its resources**

i. Support ocean-based action by: *Agreed ad ref*
a. Building SIDS’ capacity in understanding their rights, obligations and responsibilities under the United Nations Convention on the Law of the Sea (UNCLOS) including to enable their effective participation in activities under UNCLOS; *Agreed ad ref*

c. Exploring, developing and promoting innovative financing solutions to drive the transformation to sustainable ocean-based economies, and the scaling up of nature-based solutions, ecosystem-based approaches to support the resilience, restoration and conservation of coastal ecosystems, including through public-private sector partnerships and capital market instruments, provide technical assistance to enhance the bankability and feasibility of projects, as well as mainstream the values of marine natural capital into decision-making and address barriers to accessing financing, recognizing that further support is needed from developed countries, especially regarding capacity building, financing and technology transfer; *Agreed ad ref*

d. Pursuing opportunities for research and innovation in ocean-related industries that explore new technologies, sustainable practices, and innovative solutions; *Agreed ad ref*

e. Assisting SIDS in planning and implementing area-based management tools, including effectively and equitably managed, ecologically representative and well-connected Marine Protected Areas, and other effective area-based conservation measures, integrated coastal zone management and marine spatial planning, in SIDS, in accordance with national legislation and international law; and *Agreed ad ref*

f. Encouraging the increase of funding to the Trust Funds\(^3\) for the efficient and effective operation of the Commission on the Limits of the Continental shelf. *Agreed ad ref*

**E. Mainstream disaster risk reduction**

\(^3\) Voluntary trust fund for the purpose of defraying the cost of participation of the members of the Commission on the Limits of the Continental Shelf from developing States in the meetings of the Commission and the Voluntary trust fund for the purpose of facilitating the preparation of submissions to the Commission on the Limits of the Continental Shelf for developing States, in particular the least developed countries and small island developing States, and compliance with article 76 of the United Nations Convention on the Law of the Sea
i. Build resilience to disasters by: *Agreed ad ref*
   a. Providing financial and technical assistance, and capacity building for DRR and more robust multi-hazard risk governance; *Agreed ad ref*
   b. Assisting SIDS to respond to disasters by supporting them through the IFIs to build and design risk-resilient infrastructure and improving the speed of post-disaster support; *Agreed ad ref*
   c. Allocating ex-ante financing to enable the systemic reduction of disaster risk and resilience building, including the disclosure of disaster risk; *Agreed ad ref*
   d. Continuing to support the development of vehicles and instruments aimed at providing support to SIDS, including through emergency liquidity as required, and funding reconstruction after disasters; and *Agreed ad ref*
   e. Increasing support, including financing, to improve SIDS’ data collection, governance, management, analysis and assessment on hazards, disaster events and their impacts, including losses and damages in SIDS. *Agreed ad ref*

F. Safe and healthy societies

i. Strengthen health systems by:
   a. Increasing access to assistance for health systems, including financing, aligned with national and regional priorities; and *Agreed ad ref*
   b. Providing financial and technical assistance and capacity building support to prevent and address the impact of NCDs and mental health conditions, including in support of the Bridgetown Declaration on NCDs and Mental Health, as appropriate. *Agreed ad ref*

G. Data collection, analysis and use

i. Strengthening data collection, storage and analysis by:
   a. Investing in building human and institutional capacity in SIDS to collect quality, accessible, timely and reliable, disaggregated data, according to their national contexts, to measure progress and to ensure that no one is left behind; *Agreed ad ref*
b. Strengthening and modernizing national data infrastructure and systems in SIDS to better integrate data into development planning, and enhancing the capacity of Statistical Offices in SIDS; *Agreed ad ref*

c. Enhancing science based and innovative approaches, including sustainable development oriented, inclusive and responsible use of artificial intelligence, in the non-military domain, in full respect, promotion and protection of human rights and international law, for the collection, storage, analysis, disaggregation, dissemination and use of demographic data in SIDS, including use of geo-spatial technologies; *Co-Chairs proposal*

d. Enhancing partnerships and the sharing of best practice, expertise, digital public goods and data in order to facilitate SIDS peer-to-peer learning, including through the SIDS Center of Excellence and existing statistical initiatives, including through regional organizations; *Agreed ad ref*

e. Providing high quality spatial data for SIDS and work to downscale global datasets to provide accurate information for SIDS. *Agreed ad ref*

**H. Science, technology, innovation and digitalization**

i. Harness the potential of science, technology and innovation and advance the benefits of digitalization in SIDS by: *Agreed ad ref*  
   a. Providing SIDS the necessary means of implementation to strengthen their scientific and technological capacities; *Agreed ad ref*

b. Taking action to harness digital technologies to achieve sustainable development in SIDS by strengthening digital cooperation, developing digital infrastructure, bridging digital divides and ensuring an open, and inclusive digital future for all; *Agreed ad ref*

c. Assisting SIDS in developing national roadmaps for digitalization, science, technology and innovation (STI) and to support SIDS to build up national capacities for developing and utilizing the state-of-the-art technologies, including renewable energy technologies, marine technologies for the ocean-based economy and other areas significant to sustainable development, including digital technologies; *Co-Chairs proposal*

d. Assisting the development of policies and legislation to create an enabling environment to boost digital transformation, innovation,
enhance digital infrastructure and connectivity, bridge digital divides, enhance digital skills, support government digital services and Digital Public Infrastructure, and leverage science and technology, including new and emerging technology and Artificial Intelligence (AI), taking into account the unique needs of SIDS; *Agreed ad ref*

e. Supporting the SIDS Center of Excellence through its innovation and technology mechanism to provide learning opportunities, exchange experiences and support innovation, so as to enhance capacity building and narrow the digital divides; *Agreed ad ref*

f. Creating and supporting inclusive digital societies, and implement initiatives at all levels to develop human resources in science and technology, engineering, the arts and mathematics (STEAM), especially to promote the interest of children including girls, youth, women, persons with disabilities and other people in vulnerable situations, and to strengthen the quality of education and re-skilling in these fields by modernizing school curricula; *Agreed ad ref*

g. Developing digital solutions to expand commerce to support efforts to overcome the adverse impacts of remoteness and other structural constraints in SIDS; and *Agreed ad ref*

h. Supporting the building of capacity among SIDS populations to access new and emerging technological innovations, improving digital and financial literacy and skills, to ensure that everyone, especially the most vulnerable, have access to services, both offline and online, and benefit from economic opportunities. *Agreed ad ref*

I. **Productive populations *Agreed ad ref***

i. Increase prosperity and productive capacities, employment, equality and inclusivity in SIDS by: *Agreed ad ref*

a. Empowering SIDS to capture the benefits of digital technologies and resources for inclusive, equitable and quality education and lifelong learning opportunities, including through distance learning; *Agreed ad ref*

b. Promoting, protecting and improving the health and nutrition of populations through multi-sectoral action and strengthening health systems to support educational attainment, a growing and productive
workforce, poverty reduction and resilience to shocks; Co-Chairs proposal

c. Providing quality education opportunities for children and youth at risk and develop strategies to address underperformance, especially of boys in school, to ensure they are educated with skillsets to enable them to successfully enter the labour market, taking into account national circumstances; Agreed ad ref

d. Developing policies, strategies and norms to promote employment and reducing unemployment and underemployment, by promoting skills development and productivity, technology transfer on mutually agreed terms and experience-sharing that respond to evolving job markets and reducing barriers to employment, especially for youth and women; and Agreed ad ref

e. Increasing investment in the quality of education, re-skilling and lifelong-learning opportunities especially for children, youth, women, Indigenous Peoples, local communities, persons with disabilities, migrants and displaced people and other people in vulnerable situations. Agreed ad ref

J. Partnerships Agreed ad ref

i. New, innovative and bold approaches to partnership based on mutual collaboration and ownership, trust, alignment, harmonization, respect, results orientation, accountability, transparency, including with relevant stakeholders, and cooperation that leverages a whole-of-government and whole-of-society approach, by: Agreed ad ref

a. Expanding and diversifying partnerships with local authorities, civil society and non-governmental organizations, foundations, the private sector, academia and international financial institutions to implement the ABAS; Agreed ad ref

b. Supporting SIDS-SIDS cooperation, capacity building and knowledge exchange, particularly among SIDS institutions, including the SIDS-SIDS Green-Blue Economy Knowledge Transfer Hub at the University of the West Indies Cave Hill Campus in Barbados; and Agreed ad ref

c. Leveraging North-South, Triangular and South-South cooperation, including SIDS-to-SIDS to mobilize human, financial, technical, and technological resources, while recalling that South-South cooperation
is not a substitute for, but rather a complement to, North-South cooperation. *Agreed ad ref*

**IV. A More Effective UN In Support of SIDS** *Agreed ad ref*

33. We value the role of the United Nations system in supporting SIDS to achieve their sustainable development objectives, and request all United Nations development system entities to contribute to the implementation of, and to integrate, the ABAS into their strategic and work plans, in accordance with their mandates. *Agreed ad ref*

34. We underline the need to give due consideration to the issues and concerns of small island developing States in all relevant major United Nations conferences and processes and the relevant work of the United Nations development system. *Agreed ad ref*

35. We call upon the United Nations system to ensure country and multi-country offices of all United Nations entities operating in SIDS are well resourced, with staff with the appropriate skills, experience, country-context and capacities to operate effectively, and to avoid vacancies at the country-level, particularly in Resident Coordinator Offices. *Agreed ad ref*

36. We request the Secretary-General, within his annual report to the General Assembly for the 80th Session on the implementation of the ABAS, to present proposals to ensure a coordinated, coherent and effective UN system wide capacity development approach to SIDS and to enhance the implementation, monitoring and evaluation of the ABAS, including a potential single SIDS-dedicated entity at the UN Secretariat. *Agreed ad ref*

37. We also request the United Nations Secretary-General, in consultation with States, including through the Steering Committee on SIDS Partnerships, to present recommendations for the strengthening of the SIDS Partnership Framework and the SIDS Global Business Network and its Forum. *Agreed ad ref*

**V. Monitoring and Evaluation**

38. We commit to engaging in systematic monitoring and evaluation of the ABAS over the next 10 years. We request the United Nations Secretary-General to
convene an inter-agency task force to develop a monitoring and evaluation framework, with clear targets and indicators, to be completed by no later than the second quarter of 2025. The framework should build on the monitoring and evaluation framework for the SAMOA Pathway, in line with the targets and indicators of the SDGs, and use data from existing reporting mechanisms where possible and should not be overly burdensome or create new processes or requirements for SIDS. **Agreed ad ref**

39. We call upon the Department of Economic and Social Affairs and OHRLLS to conduct workshops to familiarize SIDS with the application of the framework and build capacity to collect and submit their data. **Agreed ad ref**

40. We call for the annual SIDS Segment of the High-Level Political Forum on Sustainable Development (HLPF), under the auspices of the Economic and Social Council, to be repurposed to review annually progress against commitments in the ABAS that are aligned with the SDGs under review. To support this, we request the Secretary-General to prepare an annual report on progress implementing the ABAS, drawing on data from the monitoring and evaluation framework. **Agreed ad ref**

41. Beginning in 2026, we call upon the Economic Commission for Latin America and the Caribbean, the Economic and Social Commission for Asia and the Pacific and the Economic Commission for Africa to conduct a comprehensive biennial review of progress in each SIDS in their respective regions, which should inform the United Nations Secretary-General’s report on follow-up of the ABAS. In this regard, we take note of the call for the establishment of a regional SIDS coordination mechanism for the Atlantic, Indian Ocean and South China Sea (AIS) SIDS to support implementation of the ABAS and contribute to its monitoring and review. We request the Economic and Social Commission for Asia and the Pacific and the Economic Commission for Africa to establish SIDS Divisions, within existing resources, to coordinate monitoring, evaluation and reporting for the AIS SIDS. **Agreed ad ref**

42. We call for the United Nations General Assembly to undertake a comprehensive mid-term review of the ABAS, informed by Regional Preparatory Meetings, to highlight solutions to address the gaps and challenges implementing the ABAS and identify priorities for the final five years of its implementation. **Agreed ad ref**
