

Ladies and Gentlemen,

I am Dr. Sara Al-Mashjari from the United Arab Emirates, a land of enormous opportunities. I am here to represent the Arab-African Council for Integration and Development - a Special Consultive of the United Nations Economic and Social Council, **led by Ambassador Imad Tariq Al-Janabi**.

I am inspired by the wise leadership of **His Royal Highness Sheikh Mohammed bin Zayed Al Nahyan**, President of the United Arab Emirates, and the humanitarian efforts of **His Royal Highness Sheikh Theyab bin Mohammed bin Zayed Al Nahyan**- Chair of the International Humanitarian Institution in United Arab Emirates. We are in **ACCID** believe to achieve tangible success in UNSDG goals & 2030 Agenda, it requires partnerships between governments, the private sector, and the civil society.

Therefore, **Arab African Council** partnered with **Promax United Group** led by Group President - **H.E. Louai Mohamed Ali** whose expertise & forward-thinking leadership, syncs into the United Nations Sustainable Development Goals agenda.

During COP28, the United Arab Emirates launched the ALTERRA Climate Catalytic Fund, a \$30 billion initiative aimed at unlocking the innovative power of both private and public sectors in climate finance. This bold step reflects our nation's commitment to sustainability.

We all want to achieve the United Nations 2030 vision, including Goal 17, which focuses on global partnerships for sustainable development. Therefore, we have established global partnerships with esteemed Groups like Promax United, who have committed agenda for Mother Earth Foundation via Earth Exchange. Earth Exchange leverages a patented methodology which engages all the sections of society to save mother nature by creating a win-win strategy for each stakeholder to combat climate change while rewarding them.

And the last but not least as we say it in Arabic “في آخر الكلام مسك الختام .. وشكرا”
