

Excellencies, Ladies and Gentlemen.

I am Dr. Sara Al-Mashjari from the United Arab Emirates, a land of enormous opportunities. I am here to represent the Arab-African Council for Integration and Development - a Special Consultative of the United Nations ECOSOC, **led by Ambassador Imad Tariq Al-Janabi**.

I am inspired by the wise leadership of **His Royal Highness Sheikh Mohammed bin Zayed Al Nahyan**, President of the United Arab Emirates, and the humanitarian efforts of **His Royal Highness Sheikh Theyab bin Mohammed bin Zayed Al Nahyan**. We are in **ACCID** believe to achieve tangible success in UNSDG goals & 2030 Agenda, it requires partnerships between governments, the private sector, and the civil society.

Therefore, **Arab African Council** partnered with **Promax United Group** led by Group President - **H.E. Louai Mohamed Ali** whose expertise & forward-thinking leadership, syncs into UNSDG.

During COP28, the UAE launched the ALTERRA Climate Catalytic Fund, a \$30 billion initiative aimed at unlocking the innovative power of both private and public sectors in climate finance. This bold step reflects our nation's commitment to sustainability.

Finally, we all aim to achieve the UN 2030 vision, including Goal 17, which focuses on global partnerships for sustainable development. Therefore, we have established global partnerships with esteemed Groups like Promax United, who have committed agenda for Mother Earth Foundation via Earth Exchange. Earth Exchange which engages all the sections of society to save Mother Nature by creating a win-win strategy for each stakeholder to combat climate change while rewarding them. I hereby encourage you all to review and contribute to the efforts of **Earth Exchange** an initiative of Promax United - partners of Arab African Council for Integration and Development.

Join our journey and help mother nature - <https://youtu.be/JGLk0ZnK2D0>

Thank you !
