Background

The [4th International Conference on Small Island Developing States \(SIDS4\)](#) was held in Antigua and Barbuda from 27 - 30 May 2024, under the theme “Charting the course toward resilient prosperity”. It aimed to assess the ability of small island developing States (SIDS) to achieve sustainable development, including the 2030 Agenda for Sustainable Development and its Sustainable Development Goals.

The SIDS4 Conference brought together world leaders who agreed on a new programme of action for SIDS “[The Antigua and Barbuda Agenda for Small Island Developing States: A renewed Declaration for Resilient Prosperity](#)” (ABAS). ABAS not only sets out SIDS ambitions, it also shows the global community how to support SIDS to achieve resilient prosperity, including practical and impactful solutions and new partnerships and cooperation at all levels.

SIDS4 Stakeholder Engagement Mandate

Through [A/RES/77/245](#), Member States called for the national, regional, interregional and substantive preparations of the SIDS4 to be carried out in a most effective, well-structured and broad participatory manner. Member States also invited relevant stakeholders, including major groups identified in Agenda 21, to participate as observers in the Conference and the meetings of the preparatory committee.

Additionally, Member States stressed the need for the effective participation of civil society, including non-governmental organizations and other major groups, particularly from small island developing States, in the regional and international preparatory processes and the Conference itself.

SIDS4 Stakeholder Engagement Strategy

To meet the mandates for stakeholder engagement as outlined in resolutions [A/RES/77/245](#) and [A/CONF.223/2024/PC/L.1](#), DESA developed a stakeholder engagement strategy with two key and mutually reinforcing tracks:

- **Awareness-raising and information sharing** to all stakeholders about the Conference and its preparatory process through multiple channels
- **Creating and providing opportunities** for stakeholders to engage in and contribute to the Conference, including participating in the intergovernmental discussions on the Conference's outcome document.

This report presents the outcomes of the efforts by the SIDS4 Secretariat to mobilize stakeholders from different sectors around the Conference and its preparations.

The Secretariat expresses its gratitude to all stakeholders for their active engagement and constructive participation throughout the SIDS4 process.

Preparatory Process

To ensure the meaningful and substantive engagement of stakeholders in preparation for the SIDS4 Conference and in accordance with resolutions [A/RES/77/245](#) and [A/CONF.223/2024/PC/L.1](#), major groups, non-governmental organizations, civil society organizations, academic institutions, the scientific community, the private sector, philanthropic organizations and other stakeholders were invited to contribute their substantive inputs as part of the preparations for the Conference.

Online Consultations

DESA led global online consultations to gather substantive inputs from stakeholders to the intergovernmental process for the SIDS4 Conference.

[13 June – 7 July 2023] Global Online Stakeholder Consultation

- To facilitate the participation of stakeholders in the SIDS4 and its preparatory processes, DESA, in partnership with OHRLLS, convened a [global online stakeholder consultation](#) from 13 June to 7 July 2023 to seek stakeholders views on key challenges and policy recommendations for SIDS. Stakeholders were invited to identify the key challenges SIDS face, outline policy recommendations that can assist SIDS in achieving their sustainable development priorities and highlight innovative opportunities for stakeholder engagement at SIDS4.
- The consultation generated 170 responses from around the world. DESA prepared regional snapshots highlighting key challenges, policy recommendations, and opportunities for stakeholder engagement which were released ahead of the regional preparatory meetings.
 - **Pacific Regional Snapshot:** The Pacific Region Snapshot, launched in preparation for the [preparatory meeting](#) held in Tonga from 16 to 18 August 2023, is available [here](#).
 - **Caribbean Regional Snapshot:** A regional snapshot featuring contributions focusing on the Caribbean region was prepared as an informal input to the [preparatory meeting](#). The Caribbean Regional Snapshot is now available [here](#).
 - **AIS Regional Snapshot** - A regional snapshot featuring contributions focusing on the AIS region was prepared as an informal input to the [preparatory meeting held in Mauritius from 24 to 26 July 2023](#). The AIS Regional Snapshot is available [here](#).

Additionally, DESA also prepared a global report, summarizing key findings from the online consultation, which was launched in the lead up to the [interregional preparatory meeting](#) for all Small Island Developing States held in Cabo Verde from 30 August to 1 September 2023. The global report is now available [here](#).

[15 December 2023 – 19 January 2024] 2nd Global Online Stakeholder Consultation - Inputs for Interactive Dialogues

- From 15 December 2023 to 19 January 2024, DESA convened a second [global online stakeholder consultation](#) to solicit informal inputs from stakeholders related to the themes of the five interactive dialogues of the SIDS4. The consultation generated 64 responses from stakeholders from different sectors and regions of the world. DESA prepared a [summary report](#) highlighting key messages and takeaways from the consultation.
