Introduction

- ▶ In the Northwest Province and within the Bojanala District, the Rustenburg Local Municipality is the only municipality participating in the Voluntary Local Review (VLR) project and in fulfilling some of the 17 Sustainable Development Goals (SDGs).
- ▶ The South African Local Government Association (SALGA) issued an invitation to all municipalities to apply for participation on the VLR and within the Northwest Province only the Rustenburg Local Municipality was selected.
- ▶ This is the first (1st) VLR produced by the RLM which may be deemed a pilot. With this first report the Rustenburg Local Municipality is reflecting how the Performance Management System is linked to Sustainable Development Goals and how projects implemented by other stakeholders responds to the SDGs.
- ▶ Efforts to fulfil the Sustainable Development Goals are backed by civil society, private sector, organizations as well as the public sector. With this report, the municipality will take a critical look at how progress is registered in implementing the SDGs and highlight areas where not much is done to fulfil all the goals that are necessary for consideration of the RLM.
- ▶ It is the municipality's wish to have everyone on board in order to have a collective effort towards the realisation of meeting the targets for the SDGs. At the ultimate end, if we all take responsibility for fulfilling the SDGs, it becomes possible to attain and meet the targets. Together we can when we leave no one behind.
