1:15 - 2:30 pm	CR 5	AI and its Impact on SDGs 5, 8 and 17	This session aims to address the following questions: How is AI affecting the current job market, particularly in relation to implementation of SDGs 5 and 8? What factors need to be addressed to ensure the application of AI supports gender parity, SME growth and a just transition to climate-friendly jobs? How to ensure equitable access to AI technology and related skills, and what are some examples of successful partnerships in this area?	IOE, Business and Industry, ECOSOC President, Morocco and ILO	LINK
1:15 - 2:30 pm	CR 9	Transformative Systems Science for Sustainable Development	SDG implementation requires a holistic approach that engages a broad spectrum of stakeholders drawing from a variety of perspectives and expertise. This session will explore the collaborative efforts of AE4RIA (Alliance of Excellence for Research and Innovation on Aephoria), PVBLIC Foundation and the University of Cambridge towards the advancement of sustainable development through innovative, human-centric, interdisciplinary systems for the sustainable interaction between nature, society, and the economy.	PVBLIC Foundation, AE4RIA, Cambridge University	LINK
1:15 - 2:30 pm	CR 11	Harnessing the ECOSOC Partnership Forum: Bridging the Global Agendas through Localized Partnerships for SDG Transformation	This side event will explore how the ECOSOC Partnership Forum can act as a catalyst for connecting different global agendas with the 2030 Agenda through localized partnerships as essential drivers of social transformation, advancing sustainable, science- and evidence-based solutions, and mobilizing the resources needed to ensure no one is left behind.	Global Taskforce of Local and Regional Governments, UN Habitat, Brazil, Morocco	LINK

1:15 - 2:30 pm	CR 12	UHC2030: Multistakeholder Partnership for Advancing SDG 3 through Advocacy, Accountability and Alignment for Universal Health Coverage	The achievement of SDG 3 is dependent on an ecosystem of stakeholders across sectors – from governments, international organizations, foundations and philanthropies to civil society and private sector. UHC2030 is the leading global multi-stakeholder platform that brings together these diverse voices and perspectives for the common goal of achieving universal health coverage (UHC). This side event will provide a space for each of UHC2030’s constituencies to highlight their work in advancing progress on UHC and the collective impact of the partnership in driving progress through advocacy, accountability, and alignment.	Japan, Georgia, South Africa, UHC2030, WHO, UN Foundation	LINK
1:15 - 2:30 pm	CR E	“Inspire 4 Tomorrow – I4T” Innovative Partnership: Accelerating Inclusive and Sustainable Development	The event will demonstrate “I4T” partnership’s approach for implementation of actions approved in the Pact aimed to mobilize the commitments by promoting inclusive and sustainable development to advance the 2030 Agenda, and contributing to HLPF 2025 goals 3, 5, 8, 14,17.	Inspire 4 Tomorrow Foundation, Permanent Missions of Italy, Zambia, Chile, Paraguay to the UN, UNDESA, FILAC (Intergovernmental Fund for Development of Indigenous People of Latin American and Caribbean) / Fund for the Development of Indigenous Peoples of Latin America and the Caribbean (FILAC), CANEUS (Canada-Europe-US-Asia-Africa) International Organisation, Pawanka Fund, SDA Bocconi school of management, University of the Autonomous Regions of the Nicaraguan Caribbean Coast (URACCAN), Center for Autonomy and Development of Indigenous People (CADPI)	LINK
