i am happy and gain good knowledge

I am happy and gain good knowledge

Good

No

If you are an entrepreneur, can you inform the number of employees in your enterprise?

If you are an entrepreneur, can you inform the sector of your enterprise?

If you are a government official, could you please let us know how you support MSMEs?

i support MSME's by providing infrastructures

The main focus area as a ministry of industry is policy making, capacity building and monitoring and support for regions and main capital city as well.

No i am msme

Capacity Building

Yes, I know how to support MSMEs

As a government official, supporting Micro, Small, and Medium Enterprises (MSMEs) is a critical part of fostering economic growth, job creation, and innovation. There are several ways that the government

I'm working government official and support MSMEs by preparing TOR, research among MSME's problem. The other one is identify and select support MSMEs which support emergency

Supporting MSME by solving problems provide training on skill gap and knowledge generally giving them support and monitoring their manufacturing sector

If you are a government official, could you please let us know how you support MSMEs?

I support MSMEs by gathering for them updated policies and strategies mentioned by governments

By facilitating Loan Shed Input and mkt linkege

frequent follow up and support,providing training

My organization support MSME by policy making.

What are your key take away messages from this workshop?

What are key take away messages from this workshop?

Using digital tech to borrow money with good terms, thank you!

I personally tried to look the gaps that I have been facing in my firm and I got so many lessons to fix it and make it wright.

Its very supportive for me I can add value for my organization
The key point Good financial systems About clustering
Digital Markets

i have developed good understanding on the financial system of msme's and entrepreneurship

From this workshop forthe future such like this training from the top to the bottom community, government, non government, farmers and etc if traines training whole community beneficiary

The financial litracy course for SME's is very crutial and also the supply chain financing and cluster based financing.

The role of Cluster and Supply Chain integration for financing MSME's, Financial Literacy: Traditional and modern sources of financing and contribution of fintech for MSME's access to capital.

I took so many experience including financial latery and clustering with supply chain management and time management

What are your key take away messages from this workshop?

What are key take away messages from this workshop?

continues learning our skill is key.

Supply Chain Financing And Financial Literacy

The supply chain of different organization and their management ways, Financial sources and the way of finding finance. the different types of finance providers

The key takeaways from a workshop focused on MSMEs (Micro, Small, and Medium Enterprises) and their development could include the following: 1. *Importance of MSMEs for Economic Growth* - MSMEs are

Interesting workshop to solve the main problem of MSME financial management

This workshop is informed me as there is many financial loan options that can support MSMEs specially Shariah Compliant finance.

Terminologies of finance and How cluster financing facilitates

better understanding on clustering and financial literacy

What are your key take away messages from this workshop?

What are key take away messages from this workshop?

Making informed
decision regarding
MSME financing

MSME are crucial for the
growth if a Nation.

Quality of the workshop

Will you like to apply knowledge learnt from the workshop?

What are challenges to apply knowledge learnt?

We need more hands-on support in real practices

Lack of finance

Members on the MSMEs are not well educated and it will be a little difficult to transfer

Budget

Attitudes

There are many challenges why knowledge is change to practical apply. The first one lack of budgeting constraint, technology constraint, lack acceptance of knowledge among society and the like

Government commitment and also financial problems and bureaucracy on financial institutions

Infrastructure, Lack of Connectivity, resources contextual to the Local language.

What are challenges to apply knowledge learnt?

No i dont any challenges that stop me to make practical inthis knowledge

Government
Commitment

Finance, logistics,
stakeholders
corporation and etc.

Applying knowledge gained from workshops or training sessions can be challenging for several reasons. Below are some of the key challenges that individuals or businesses might face when trying to appl

Languge

internet connection
problem,easly access to
finance from banks

Lack of awerness of MSMEs
and knowledge gaps Un
willingness of interest based
loan due to their religion
regulation Policies gap

Languge

What are challenges to apply knowledge learnt?

the matter of
consistency and
discipline.

lack of finance, working
area to expand my
business

Finance

What are future support needed?

More workshops like this will be really very helpful

Financial support
Machinery support
Technical skill Market linkage
Loans without collateral
Low interest rate for MSMEs

Follow up are necessary.

Budget

Collaboration to Marketing

The future support needed is all government and nongovernment sector, interpreneur such like this training trainees upto the community is developed.

More workshops and international experiance sharing visit like asian tigers countries to get more knowledge.

Similar workshop with detailed focus on Digital Payment and Financing, Modules customized to the local language

What are future support needed?

To make capacity building in every year such kind of knowledge

More Workshops And Field Visit

Finance, logistics, training, stakeholders commitment and etc.

- *Entrepreneurship Training*: MSME owners and their employees require continuous skills development, particularly in management, leadership, marketing, and innovation. Entrepreneurship education shou

Additional trning

Supporting by providing training

machinery support and financial support,training ,etc

Expansion of Sherian Compliant finance Inclusion of policies that formulated pastoral communities.

What are future support needed?

Similar trainings to support MSMEs

Continues and measurable and evaluation . supervising. making direct digital channel to communicate like that begins with telegram.

similar training, physical visiting effective MSMEs, technical support

International Experience sharing.

What aspect of the workshop did you find most useful?

Interactive discussions
and good logistics
support

Access to finance and
government policy and
programs on MSMEs

Financial aspect are
wonderful.

Supply chain values for
clusters

About financing & also
Clustering

All trainin material is useful.
But Interpreneuership,
financial literacy, cluster are
very important concept.

All of the training
courses were valuable

all, especially digital
financing, SCF and CBF

What aspect of the workshop did you find most useful?

Financial Literacy For
Sme's

Financial literacy and
clustering with supply
chain management

It is highly useful and
important

The aspect of the workshop
that I found most useful would
depend on the specific content
and objectives of the session.
However, here are some
general key takeaways that
tend to be most valuable in wo

I aspect the hand book
material

Training related to
finance,source of
finance

the training was very
important and valuable
to grow our business

Financial literacy

What aspect of the workshop did you find most useful?

I expected good
oripartion

all of them are usefull.

MSME financing

Financial literacy

Any other comments or recommendations?

If any financial support available or any funds please help us with regards

These training is the most effective from ever I had and it's target consumers are good .and the only thing i would say is continue.and thanks

Its good

Its good keep it up in more training titles

I recommend to have a module customized to the local language to apply the skills to our community

To be contontinue such kind of trainging to valueble

No

Here are a few additional comments and recommendations that could be useful for future workshops or for improving MSME development: 1. *Follow-up Support and Mentorship* - *Recommendation*: After

Any other comments or recommendations?

In general from this work shop there gain many things. The concept of interpreneurship, financial literacy, cluster, cluster based finance and SMEs based finance and the like

Good training to be continue helpful to scaleup MSME skill and knowledge

Thank you this training organizer and UNDESA to make it happen

if time of training is added is beter

Preparation of transport for those disabilities Way of lecture for long time is boring

1 If this could be made in the region the participants would be inclusive within given budget. 2. 4 days are not enough. to cover all there were rushed our teachers and no asking and recommendation

Continued the support for MSME..
