

Join us for our side-event:

Coastal Carbon Ecosystems Fundamental for Ocean and Human Health

Welcome by
VLADIMIR RYABININ
Executive Secretary, IOC - UNESCO

- How can science help in the conservation and restoration of coastal carbon ecosystems?
- How does Blue Carbon fit into the SDGs and national policy context?
- What collective actions towards transforming coastal management can we take?

February 16th, 2017 | 1:15 - 2:30 PM
Conference Room B, UN Conference Building

Organized by Conservation International
In cooperation with Intergovernmental Oceanographic Commission of
UNESCO and International Union for Conservation of Nature
