Fourth Multi-Stakeholder Forum on Science, Technology and Innovation, New York
Date: Tuesday 14 May 2019
Time: 6:30-8:00 p.m.
Venue: Conference Room A in the UN Conference Building

Using SDG data to support science, technology and innovation:
The SDG 6 on water and sanitation example

Summary

By bringing together data on all the global indicators for water and sanitation, as well as other key social, economic and environmental data, the new SDG 6 Data Portal provides an overview of progress towards SDG 6, including interlinkages to other sectors.

This event will show how data on the SDG global indicators can support science, technology and innovation, and how the Portal can help analyze interlinkages between SDG 6 and the SDGs that are being reviewed in-depth by the HLPF this year.

Programme

- Welcoming address by the UN-Water Secretary
- Demo of the SDG 6 Data Portal
- Showcase of indicator-specific interlinkages
- Plenary discussion
- Concluding remarks
