

# IPCC SPECIAL REPORT ON THE OCEAN AND CRYOSPHERE

Monday, 9 December 2019  
2:45-4:00 p.m.  
SDG Pavilion, Hall 8, COP25

## FIRESIDE CHAT WITH

**Amb. Peter Thomson**  
UN Secretary-General's Special  
Envoy for the Ocean

**Dr. Hoesung Lee**  
Chair of the Intergovernmental  
Panel on Climate Change

Given the role of the ocean as the largest natural climate regulator on earth, and recognizing the interconnected ways in which the ocean and cryosphere are expected to change in a warming climate, the Intergovernmental Panel on Climate Change released a Special Report on the Ocean and Cryosphere in a Changing Climate, in September. This event aims to promote the report among policy-makers and other stakeholders, and to identify ways to support further implementation of the 2030 Agenda, in particular Sustainable Development Goal 14, and the Paris Agreement based on the findings of the report.

## MODERATED BY

- **Stefanos Fotiou**, Director, Environment and Development Division, UN Economic and Social Commission for Asia and the Pacific
