

Global Social Compliance Programme

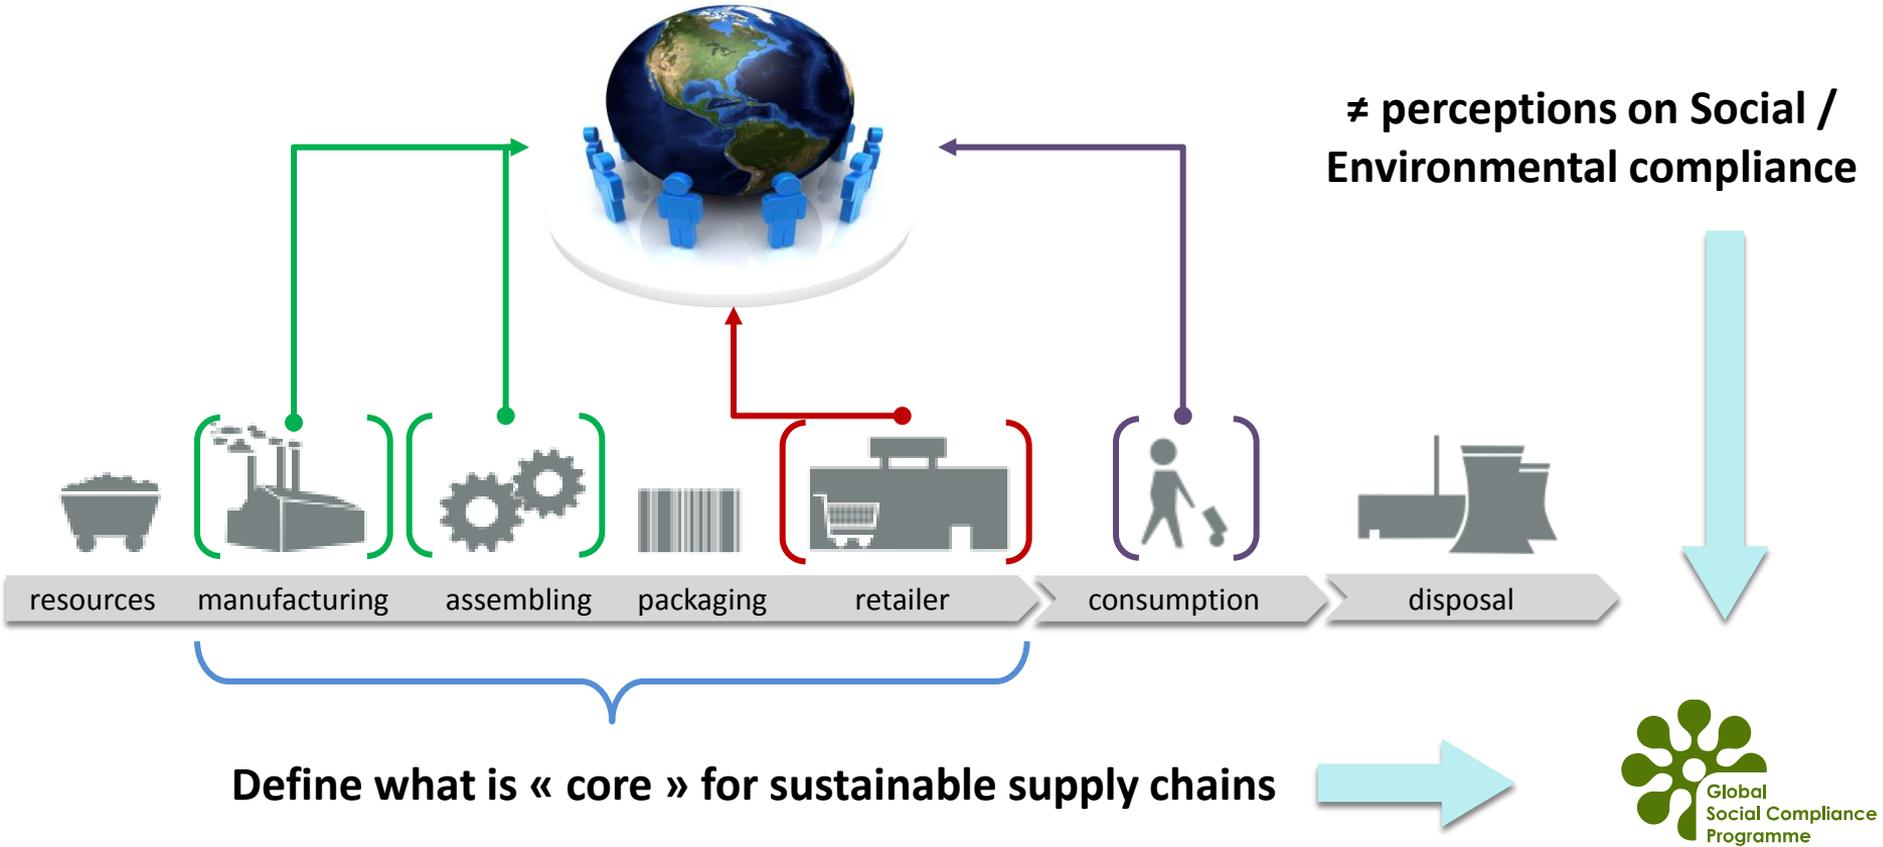

High Level Political Forum on Sustainable Development *Under the auspices of ECOSOC | 30 June – 9 July 2014 New York*

"How could sustainable consumption and production contribute to the SDGs"

Didier BERGERET | Head of the GSCP

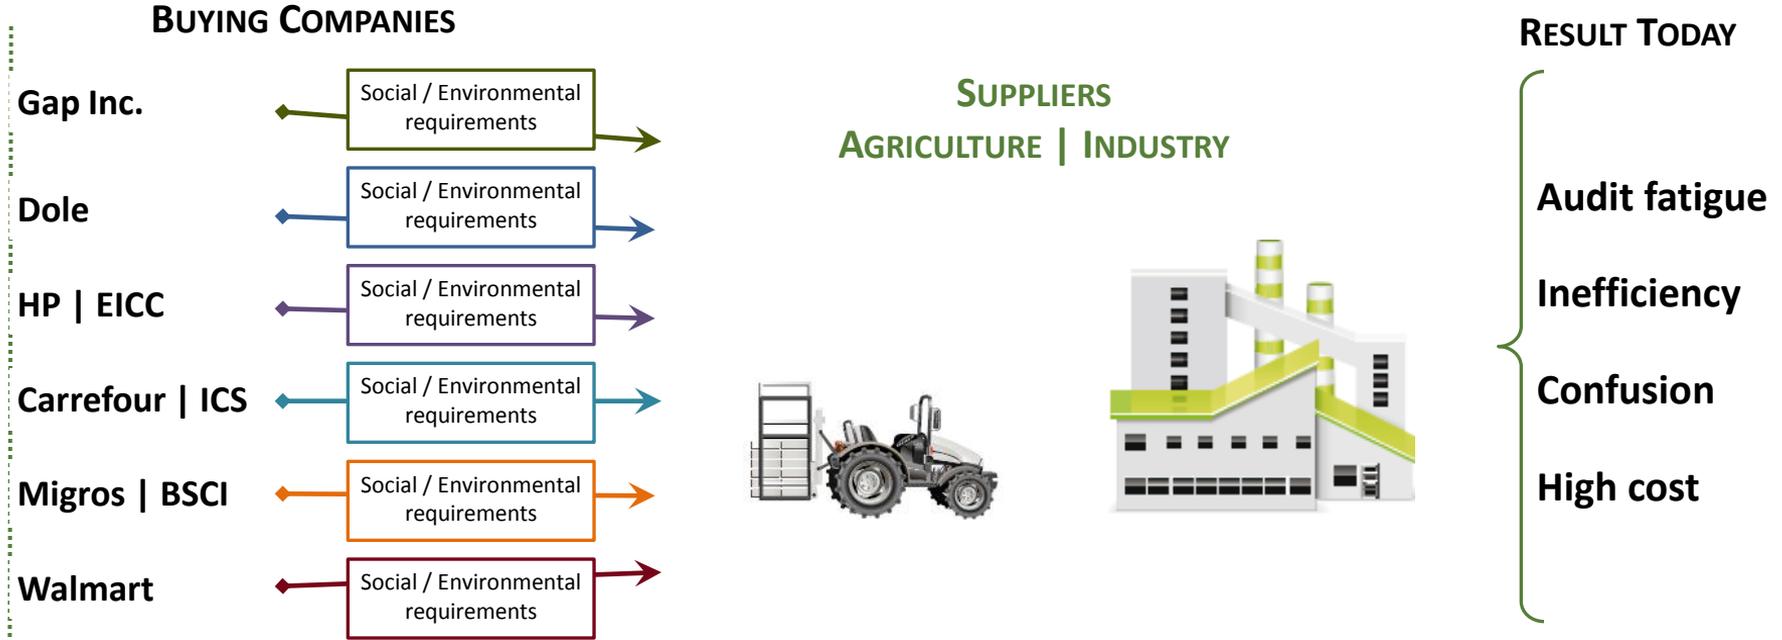

Context for supply chains

Context today

- multiplication of standards, initiatives, tools and divergence of approaches
- limited collaboration among companies and initiatives
- focus on auditing instead of capacity building

A Global Compliance Framework for the SDGs

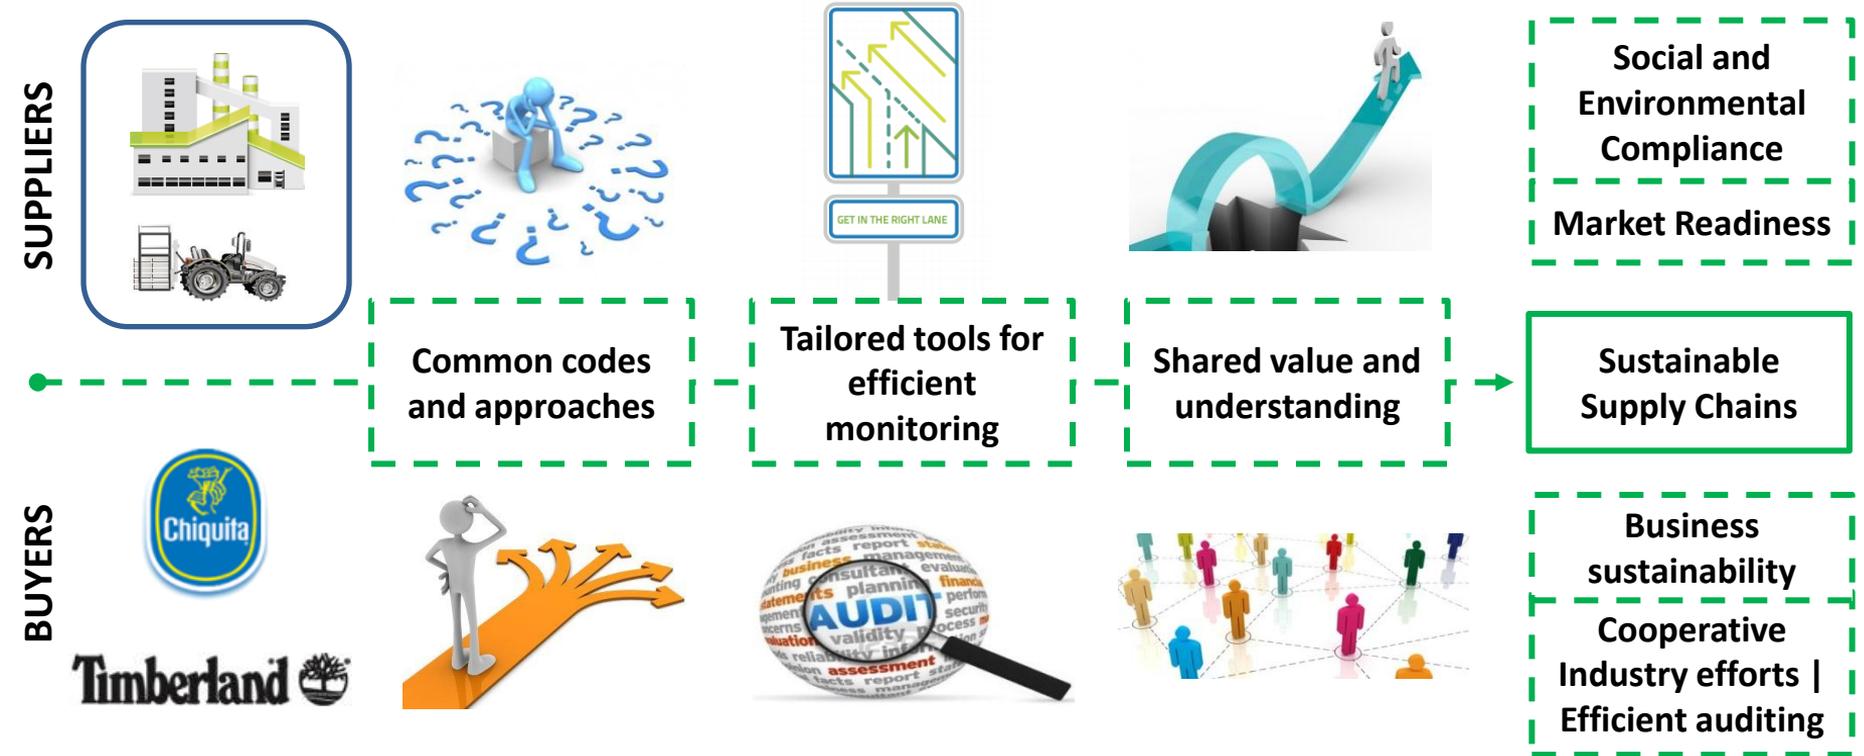

+

GSCP mission: A common framework for sustainable supply chains

- › Design and mainstream a **shared, consistent and global approach**
- › Provide a **platform to join forces for sustainable supply chains**

AND TERMS OF
EMPLOYMENT

WORKING
HOURS

- » 5. Attain gender equality, empower women and girls everywhere
 - 5.1 end all forms of discrimination against women and girls
 - 5.5 ensure women’s equal access to full and productive employment and decent work, and equal pay for work of equal value
- » 8. Promote strong, inclusive and sustainable economic growth and decent work for all
 - 8.13 end child labour by 2030, protect the rights and ensure safe and secure working environments of all workers, including migrant workers and those in precarious employment
- » 9. Promote sustainable industrialization
 - 9.7 create decent industrial sector jobs and promote job-rich industrial development
- » 10. Reduce inequality within and among countries

A Global Compliance Framework for the SDGs

- » 8. Promote strong, inclusive and sustainable economic growth and decent work for all
 - 8.10 promote greater resource efficiency of economic activities, including through sustainable supply chains, according to national circumstances and capacities
- » 9. Promote sustainable industrialization
 - 9.1 achieve structural transformation of economies towards progressively higher levels of productivity in all sectors and activities
- » 10. Reduce inequality within and among countries
- » 13. Promote actions at all levels to address climate change

■ A Global Compliance Framework for the SDGs

- » 12. Promote sustainable consumption and production patterns
 - 12.10 by 2030, increase the share of private sector actors incorporating sustainable development principles in their business practices, including sustainable supply chains, with due regard to the circumstances and capacity needs of micro-and SMEs
- » 17. Strengthen and enhance the means of implementation and global partnership for sustainable development
 - 17.38 enhance international cooperation with developed countries taking the lead in implementing sustainable consumption and production patterns, including through strengthening developing countries' scientific and technological capacities to move towards more sustainable patterns of consumption and production
 - 17.39 establish and effectively implement a multilateral code of conduct for multinational corporations to secure social and environmental responsibility and accountability
