

**The path of the Millennium Development Goals  
at the Sustainable Development Goals  
and its connection and coordination with the  
National Development Plans:**

**Costa Rica**

# Timeline of the Millennium Development Goals

# Diffusion strategies of the MDGs

- Progress reports for the years 2011, 2012, 2013.
- Estimation report costing of MDGs in Costa Rica.
- Overview of the MDGs in the web of MIDEPLAN.

# Lessons Learned in the MDG

- A unique country commitment to the MDG and SDG.
- Establish guidelines and a technical committee to guide coordinate the report and request the relevant information of de ODG.
- Make mechanisms to ensure that information and channels on the institutions to develop properly.
- Creation of a technical committee to support the implementation of the new Development Agenda Post - 2015

# National Strategy of Development

- The National Development Plan (NDP) is the guiding framework for government action to promote development.
- The NDP is held every four years, which includes the main topics to be implemented during the Administration.
- The NDP development is directed by MIDEPLAN , in coordination with all the areas of the National Planning System.

# Vision

**A solidary and inclusive country that guarantee the welfare of the present and future generations, where the people trusted in the transparency and effective democracy.**

**Promote the economic growth and generate quality employment.**

**Fight against poverty and reduce inequality.**

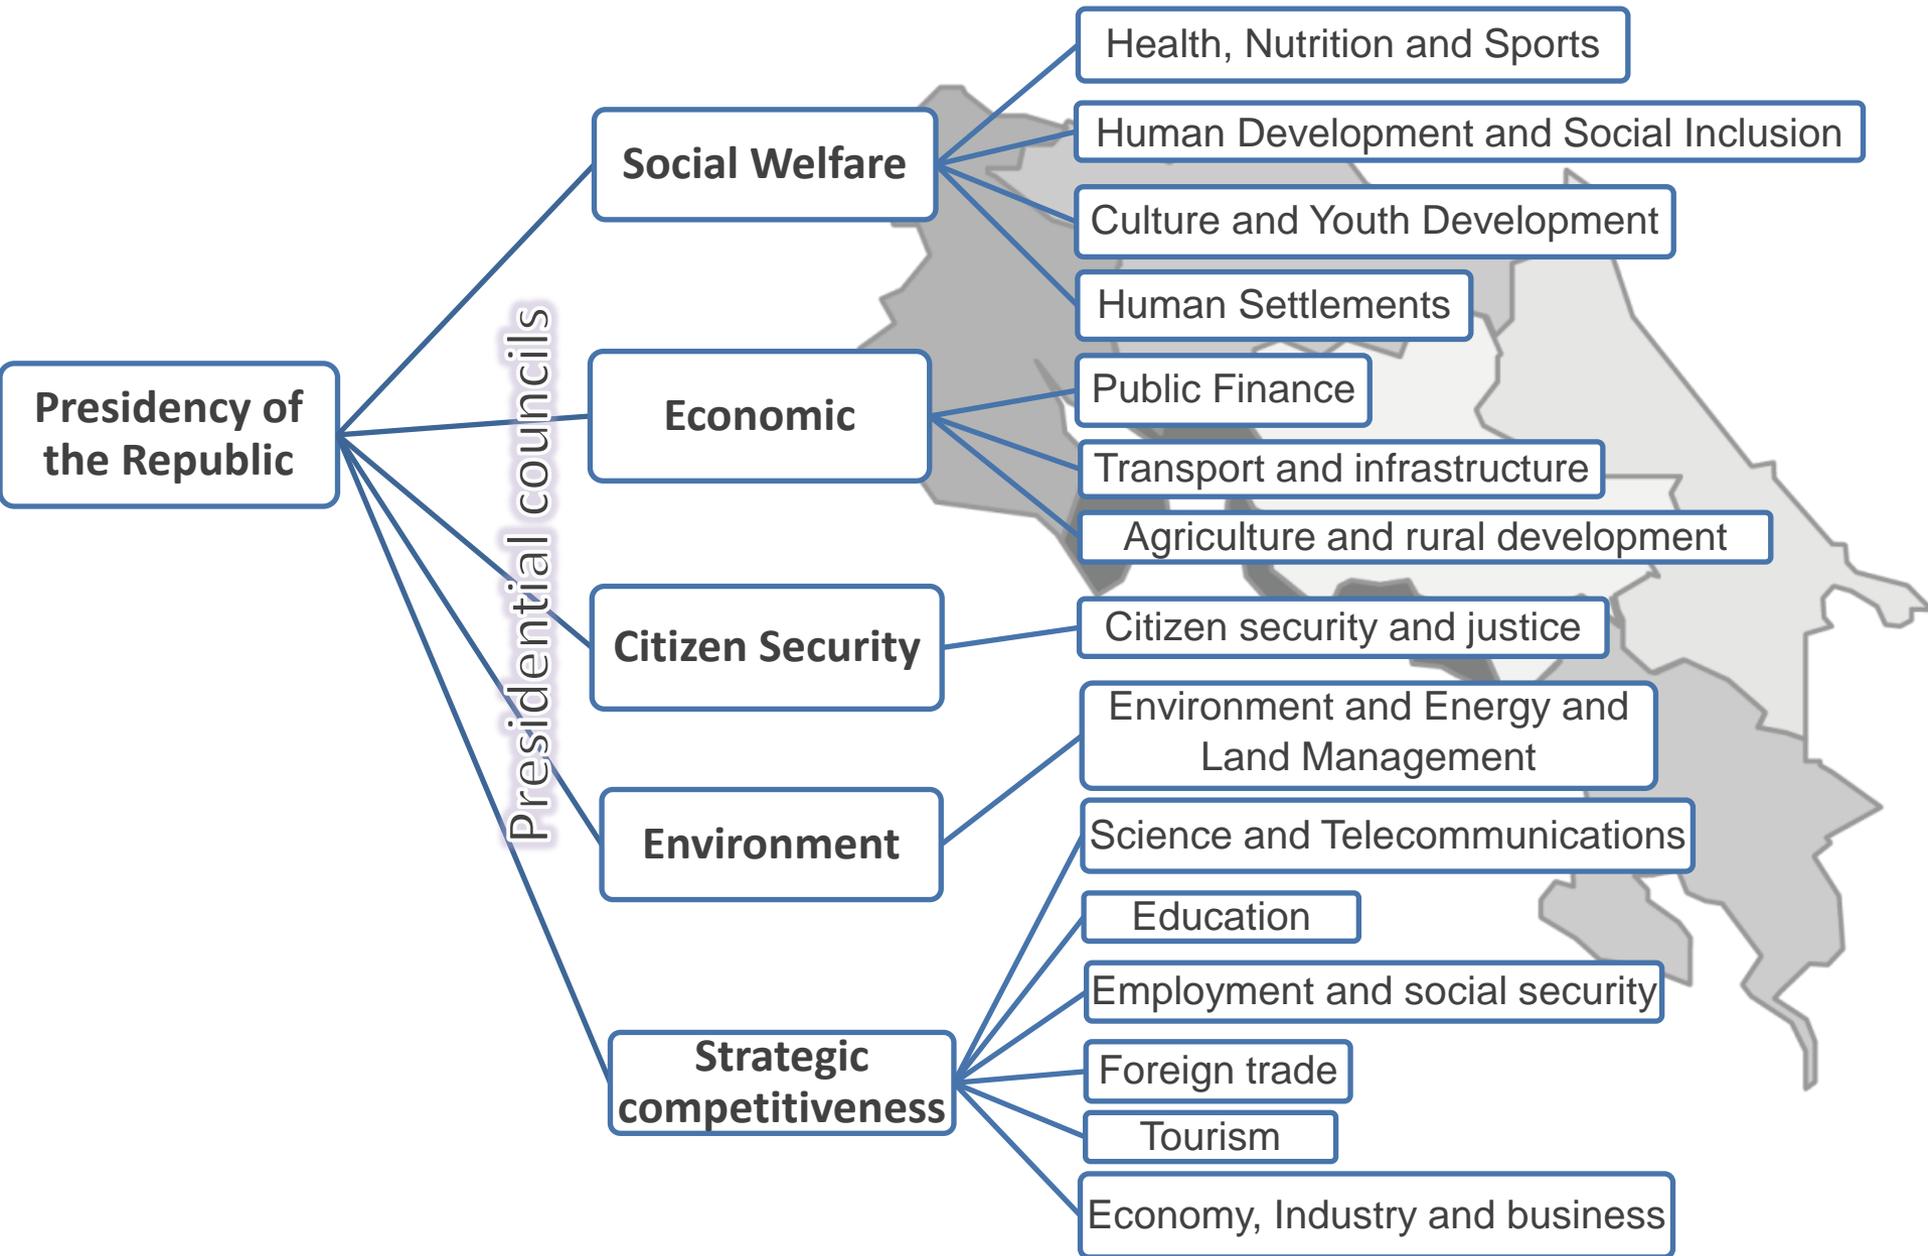

**A effective transparent open government with a strong anticorruption policy.**

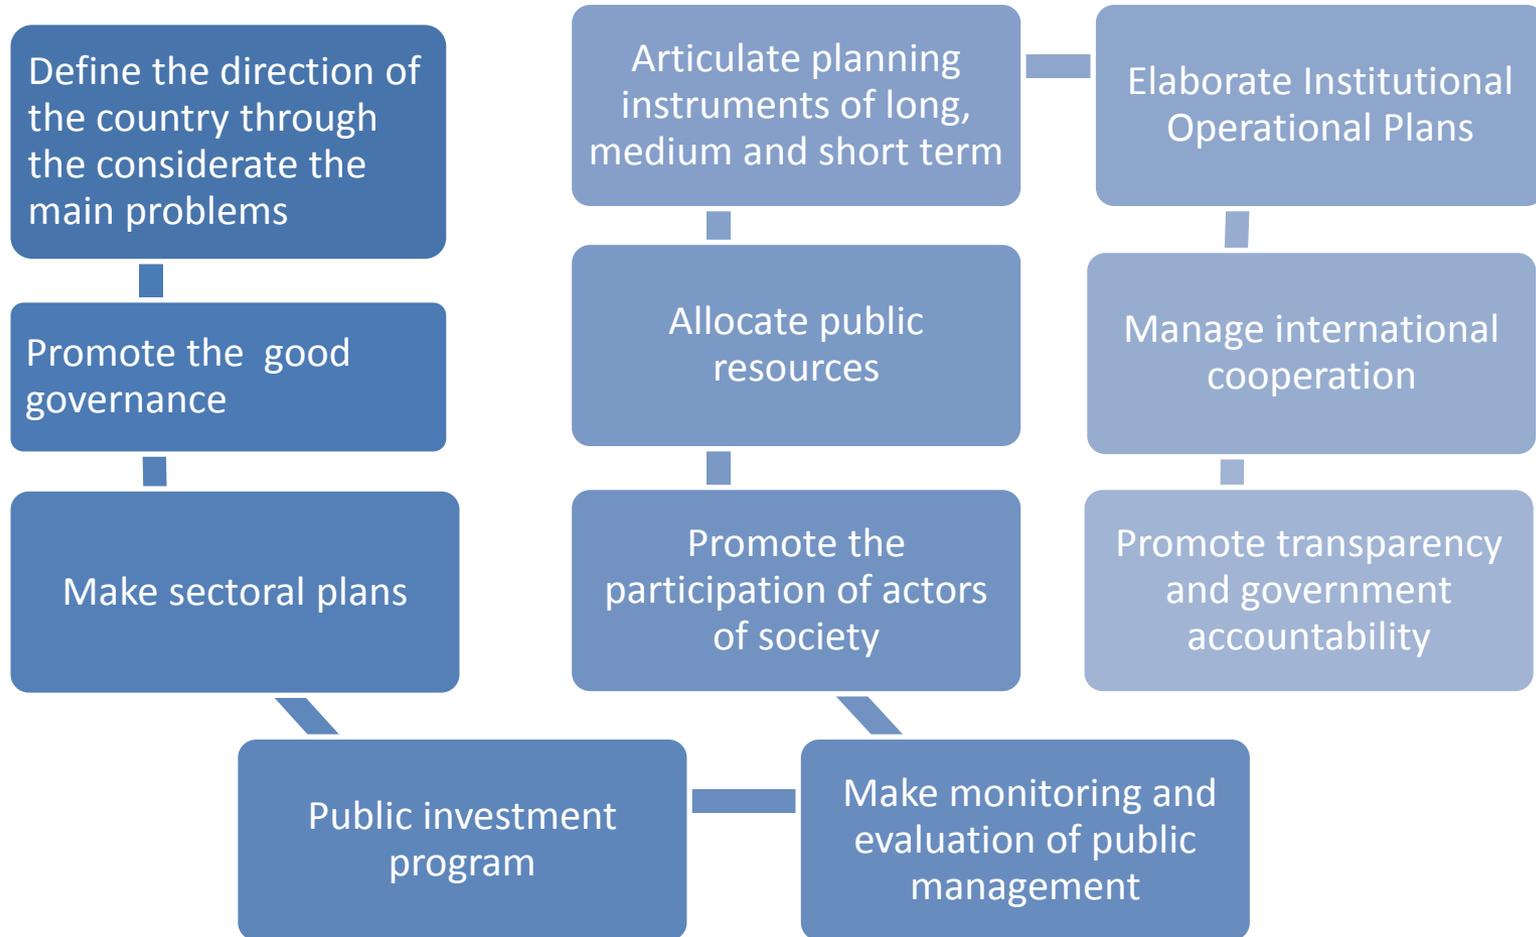

**Values: Vocation of service, honesty, transparency, solidarity, equity, citizen participation, innovation, ethic, efficiency, patriotism, respect of diversity.**

**Mision: A Government that promote a sustainable development, with innovation, equitable and social participation on the basis of an ethical and effective public management.**

# Operationalization of the NDP

# NDP Targets:

# Achievements of NDP:

- Quarterly, semiannual and annual monitoring of the goals of the NDP will be made.
- The agenda for strategic evaluations of the NDP previously defined by the rectors and institutional hierarchy we have approved MIDEPLAN and the Presidency of the Republic will be incorporated.

# Country Challenges in Sustainable Development

1. The strengthening of a Long Term Vision through the Prospective Analysis Unit as a frame of reference the SDG, binding and shared by citizens.
2. Harnessing the covenant of Sustainable Development Goals to establish long-term goals in the country.
3. Achieve institutional articulation that enables the implementation of SDG.
4. Broaden the approach of the sustainable development by integrating social, economic and environmental, not just the environmental approach, as has been the emphasis in the country.
5. Potentiate multisectoral, sectoral and institutional partnerships to implement the goals SDG.
6. Greater ownership of citizens in the planning tools and accountability.
