LEAVE

NO ONE

BEHIND

# Approach

The Partnership aims to:

- ensure that **voices of the most marginalised are heard**; so that **governments deliver on the promise**
- **catalyse sustained action, commitment and responsibility** that is needed from the global community (including governments, private sector, civil society, UN, international organisations and citizens) to implement the Global Goals so that **no one is left behind**.

To help secure a long-term broader partnership to turn it into a reality.

There are **three principles** at the core:

EXAMINE

ENGAGE

EMPOWER

# Achievements to date

- **30 national dialogues** taking place around the world from Fiji to the Philippines to Rwanda to Peru reaching approximately 3,000 people
- **Global report** establishing a baseline of who the poorest 20% of people are globally.
- Online survey reaching over **3,500 respondents** from 40 different countries.
- Global Goals mobile campaign launched in September 2016 reaching up to **2.34 billion customers** sharing content including from the LNB partnership
- **Film shown to Heads of State** at opening of UN General Assembly and around the world.
- **High-level events hosted** with Ministers at the High Level Political Forum (July 2016) and at the UN General Assembly (September 2016).

# Examine

Produce and socialise data to improve understanding of who is being left behind, where and why.

P20 INITIATIVE

- Wealthier than global median
- Wealth greater than P20, but below global median
- Wealth in the global P20

**Country profile**

**Bolivia** 2016 November

Country profile

**Development Initiatives** P20 INITIATIVE [www.devinit.org/p20](http://www.devinit.org/p20)

This country profile is produced by Development Initiatives to support the National Dialogue on the 2030 Agenda for Sustainable Development. As one of the founding partners of the Leave No One Behind partnership, established in July 2015, our role is to provide data at a national level to help track progress against the Sustainable Development Goals (SDGs) so we can make sure that no one is left behind.

**Poverty profile**

- The national poverty line in Bolivia is Bolivian boliviano (BOB) 22.82 a day. According to the most recently available data (2015), 38.6% of the population live below this line. The majority of people living below the poverty line dwell in urban areas (55.1% in 2015) compared with rural areas (44.9% in 2015).
- In Bolivia extreme poverty (internationally defined as those living on less than PPP\$1.90 a day) rose steeply during the 1990s to a peak of 25.7% in 2000 before declining to 6.8% in 2014.
- As of 2014, the richest 20% in Bolivia owned 52.7% of national income, in contrast to the 3.6% shared by the poorest 20%.

<b>National poverty line</b> (BOB per day)	<b>% of population living below the national poverty line</b>	<b>% of urban population living below the national poverty line</b>
22.82	38.6%	55.1%

## THE WORLD IN 2030

No woman or girl will experience abuse, exploitation or violence.

The infographic features a vertical timeline with three icons of a woman, each with arrows pointing towards it from all directions. The timeline shows a decrease in the number of women experiencing violence over time.

Year	Percentage of girls and women experiencing physical or sexual violence
2030	No girl or woman experiences physical or sexual violence
2015	35%
2000	Up to 50%

## National dialogues in 30 countries:

**Africa:** Kenya, Mozambique, Nigeria, Rwanda, Sierra Leone, South Africa, Tanzania, Togo, Uganda, Zimbabwe

**MENA:** Palestine, Sudan, Syria

**Latin America:** Bolivia, Brazil, Colombia, El Salvador, Jamaica, Peru

**Asia:** Afghanistan, Bangladesh, Cambodia, East Timor, India, Nepal, Pakistan, the Philippines, Tajikistan

**Pacific:** Fiji

Other countries are also hosting related LNB dialogues, eg. Australia, Germany

All supporting resources available on the [google drive](#).

# What's next?

- Conclusion of National Dialogues in remaining countries and analysis of the survey and country reports

- World Data Forum

- Global Exchange meeting with Action for Sustainable Development, Johannesburg
  - Multi-stakeholder planning workshops

- Africa Hub - campaigning activity
- Development of data visualisations
- LNB data platform consultation
